Wauwinet Road Sidepath

- This project is being managed by FHWA's Eastern Federal Lands-Highway Division. An agreement with the Town describes the survey and preliminary design process on-going from April 2023 to May 2024. This will identify resources that may be impacted and the design options to minimize impacts. Staff has met with the homeowner groups for Pocomo and Polpis to discuss the status and potential elements of the project that could be funding with private donations. as of 7/25/2023

Tom Nevers Sidepath

- This project is being reviewed by the Bicycle and Pedestrian Advisory Committee (BPAC). BPAC is reviewing options at the head of the path at the intersection with Milestone Road, which includes a rest area and design features that inform users of the history of Tom Nevers. Other design options include a boardwalk option on Land Bank property, options for crossing Old Tom Nevers Road, and alignment options for the end of the path to the fields that minimize right-of-way impacts. as of 7/25/2023

Cliff Road Coffin Park to bike path at Sherburne Turnpike

- Request sent to Selectboard to add to future sidewalk list. as of 7/25/2023

Pleasant St. Gardner Perry Lane to Williams St.

- This segment of the larger project for Complete Street improvements along Pleasant Street is being reviewed with the Williams Lane sidewalk by BPAC. The Committee is reviewing options for both bicycle and pedestrian accommodations. A one-way traffic flow option would be an optimal accommodation for bicyclists with a sidepath while retaining a two-way option would only accommodate pedestrians with a five foot sidewalk. Options for Pleasant Street and Williams Lane are being reviewed with associated benefits and impacts to right-of-way, traffic flow, and safety for all users. as of 7/25/2023

Lovers Lane Bike path/ road reconstruction
