

HISTORIC DISTRICT COMMISSION REGULAR MEETING

2 Fairgrounds Road
Nantucket, Massachusetts 02554
www.nantucket-ma.gov

Commissioners: Raymond Pohl (Chair), Abigail Camp (Vice-chair), John McLaughlin, Diane Coombs, Vallorie Oliver,
Associate Commissioners: Stephen Welch, Jessie Dutra, Carrie Thornewill

~~ MINUTES ~~

Tuesday, February 22, 2022

This meeting was held via remote participation using ZOOM and YouTube.

Called to order at 5:00 pm. and announcements by Mr. Pohl

Staff in attendance: Holly Backus, Preservation Planner; Esmeralda Martinez, PLUS Administrative Assistant; Terry Norton, Town Minutes Taker
 Attending Members: Pohl, Camp, McLaughlin, Coombs, Oliver, Welch, Thornewill
 Absent Members: Dutra
 Late Arrivals: Welch, 5:50 pm
 Early Departures: None

Adoption of Agenda.

Motion **Motion to Approve as drafted. (Coombs)**

Roll-call vote Carried 5-0//Oliver, Camp, Thornewill, Coombs, and Pohl-aye

I. PUBLIC COMMENT

None

II. NANTUCKET COASTAL RESILIENCE WORKSHOP – HDC REPRESENTATIVE

- Nantucket Coastal Resilience Workshop – HDC Representative
- Prep Session: Wednesday, February 23, 2022 via zoom 9:30am – 10:30am
- In Person Workshop: March 7 & 8th 8am to 3:30pm

Voting Pohl, Camp, McLaughlin, Coombs, Oliver

Alternates Thornewill

Discussion **Pohl** – We are having problems getting people to commit to the seminar for 1 day much less 2 days. One full day is service above and beyond given our workload. A lot of other boards are having similar issues. He got in touch with the workshop coordinator; he’s willing to have HDC as a partial presence rather than no presence. He can only do Tuesday. Asked if anyone could do a half day.

Camp – She could do 12-3 Monday & Tuesday; she can’t do mornings. Mr. Welch sent her a note that he could only do Tuesday.

Pohl – He can definitely handle Tuesday morning. Asked if someone can take Monday morning.

Backus – It would be nice to have the attendee information tonight.

Oliver – Doesn’t know what will arise that we haven’t already established.

Backus – The Select Board is looking for direction and advice from the regulatory boards now that the Coastal Resiliency Plan has been accepted. The workshop is to get the ball rolling and HDC carries a lot of weight in that conversation.

Pohl – Put Ms. Camp down for Monday and Tuesday afternoons and Mr. Pohl for Tuesday morning.

IV. NEW BUSINESS 01/18/2021

<u>Property owner name</u>	<u>Street Address</u>	<u>Scope of work</u>	<u>Map/Parcel</u>	<u>Agent</u>
1. Ali & Zach Smith 12-5313	232 Madaket Road	New Garage	59.4/120.1	JN Design
Voting	Pohl, Camp, McLaughlin, Coombs, Thornewill			
Alternates	None			
Recused	Oliver			
Documentation	Architectural elevation plans, site plan, photos, and advisory comments.			
Representing	Amaury Solano, JN Design			
Public	Linda Williams, MAB			
Concerns (5:17)	Terry Norton, 26 North Cambridge			
	Solano – We made changes per MAB comments.			
	Backus – This was 27' at the time MAB reviewed it. Read MAB comments 1/24: Fully visible and located in front of house; should be moved to the side. 2-over-2 is inappropriate; wrap-around 2 nd -floor porch inappropriate with stairs facing road; should not be cantilevered. Roof planes atypical; south elevation too much; colors not spelled out. East elevation window oddly spaced. West elevation skylight not in upper 2/3 of the roof; wrap-around deck inappropriate. "TBD" is not appropriate on any application.			
	Norton – Asked about the west elevation 2 nd -floor light posts with globe lights; not in keeping with Town lighting bylaws and Dark Skies Initiative.			
	McLaughlin – East elevation, too many windows. The skylight has to be in the upper 2/3 of the roof			
	Coombs – Still too tall; should be no more than 24'. The brackets on the cantilevered stairs are ridiculous. West elevation, left door should be moved in and skylight should be in the upper 2/3 of the roof. Windows should not be 2-over-2, they should match the main house, which has 6-over-6. East elevation, 12 windows is excessive and should not be mulled. South elevation, again has mulled windows.			
	Camp – Agrees about the height. Fenestration should match the main house; there is no harmony with the fenestration. North elevation, the "A" windows are too small. West elevation, the fenestration and pent roofs are very odd.			
	Thornewill – Some of the fanciful detailing is inappropriate for such a simple house. The north and west will be visible; the stairs should be moved so as not to be the main feature of that façade.			
	Pohl – To the balancing of windows, the north elevation is troubling; the "A" windows are too small with no windows below and they should be centered in the wall.			
	Williams – MAB would like to review the revisions.			
Motion	Motion to Hold for revisions and to go back to MAB for review. (Coombs)			
Roll-call Vote	Carried 5-0//Camp, McLaughlin, Thornewill, Coombs, and Pohl-aye		Certificate #	

2. Zero India St, LLC 01-5514	1 Cambridge Street	Rdc footprint and chg roof	42.3.1/130.2	Emeritus
Voting	Pohl, Camp, McLaughlin, Coombs, Oliver			
Alternates	Thornewill			
Recused	None			
Documentation	Architectural elevation plans, site plan, photos, correspondence, historical documents, and advisory comments.			
Representing	Matt MacEachern, Emeritus Development			
Public	Eric McKechnie, owner Unit 1			
Concerns (5:34)	<p>MacEachern – Presented project. He had changed the pitch from 10/12 to 11/12 so it did get taller.</p> <p>Backus – The brick section was built after the 1849 fire and the other section is circa 1940s. Read into the record Mr. McKechnie’s letter of concerns.</p> <p>Read HSAB comments 1/18: This proposal detracts from the simplicity of the previous approval. The 3rd-floor dormers add to the volume and height of the street façade. The west-facing gable end flush dormer totally overwhelms that roof plane. These changes are not appropriate, and the original should remain. The building can become slightly narrower without changing the appearance to accommodate the property line encroachment.</p> <p>Pohl – Change of use is not the purview of HDC; if vents and fans are required, this will have to come back the HDC for them. Landscaping would be reviewed under a separate application.</p> <p>Coombs – Agrees with HSAB; this is a historic building, and this is yet another 3-story building that was never there. It should be reduced.</p> <p>Camp – South elevation, the dormers diminish the history of the structure; simple is better. Agrees with HSAB.</p> <p>Oliver – Agrees with HSAB and Ms. Camp. The beauty of the previously approved was its simplicity. The steep pitch is incongruent; cross gables make it feel taller; eliminate the 3rd-floor dormer. It seems taller than the previously approved. It’s next to a small, 1-story building so the height stands out.</p> <p>McLaughlin – North elevation, too much glass. Mr. McKechnie’s letter touched on some good points. This is a straight commercial building that doesn’t match the historic structure.</p> <p>Pohl – He agrees with what’s been said, especially the 3rd-floor dormers.</p> <p>Motion to Hold for revisions and to go back to HSAB for review. (Oliver)</p>			
Motion	Carried 5-0//Camp, Coombs, McLaughlin, Oliver, and Pohl-aye

V. OLD BUSINESS 01/25/2022

<u>Property owner name</u>	<u>Street Address</u>	<u>Scope of work</u>	<u>Map/Parcel</u>	<u>Agent</u>
1. 450 Green Park, LLC 11-5272	2 Stone Alley	Adtn, Alter, & Foundation	42.3.1/103	Emeritus
Voting	Pohl, Camp, Coombs, Oliver, Welch			
Alternates	None			
Recused	None			
Documentation	Architectural elevation plans, site plan, photos, historical documents, and advisory comments.			
Representing	Matt MacEachern, Emeritus Development			
Public	Virginia Andrewes, 1&3 Stone Alley Sarah Alger, Sarah F. Alger P.C			
Concerns (5:50)	<p>MacEachern – Reviewed changes made per previous concerns.</p> <p>Backus – These plans have not been vetted by staff or HSAB. Reviewed the history. The original structure is unique in form. We should see a window survey for any window changes. Requested any revisions go back to HSAB.</p> <p>Andrews – She had not seen this set of plans; feels submitted plans changed after HSAB review is not appropriate by not allowing time for anyone to review them. Because of its location, any addition will have a significant visual impact. The setback measurement, on the plans which HSAB reviewed, was from the middle of Stone Alley, not the edge of the road. Any proposed grade changes should be accompanied by current and proposed elevations. The demolition plan contemplated a large amount of demolition and she’s glad that’s been reduced.</p> <p>Welch – He thinks it’s premature to review plans that no one has had a chance to look at.</p> <p>Pohl – The fact is the earlier submission was opened at the end of the last Tuesday evening; subsequent to that, Mr. MacEachern made additional changes. Thinks everyone would think the reduction in mass is a step in the right direction. We are hearing requests for additional information. Holding this for HSAB to review would give everyone time to review the revised plans. He can’t put this to the Board without due process for the neighbors.</p> <p>Alger – Asked when the plans will be available.</p> <p>Backus – We received them today.</p> <p>Motion to Hold for HSAB review. (Welch)</p>

Alternates	Welch, Thornewill				
Recused	None				
Documentation	Architectural elevation plans, site plan, photos, and manufacturer spec sheet.				
Representing	Robert Newman, Sandcastle Construction Inc.				
Public	None				
Concerns (6:08)	Newman – Presented project. Solar will be somewhat visible from Pilgrim Road. Coombs – Thinks the panels will be visible, suggested a view. South elevation, there is too much fenestration with the solar panels; that needs to be reduced. The other elevations are very simple. Oliver – Appreciates the treatment of the solar panels with the black roof; agrees the south should have fewer windows. Camp – A view from Pilgrim might help. The panels were well handled and might be viewed obliquely. North elevation, the 3 forward gables are too much and should be simplified. East elevation, the broke back would look better if it were extended a little more. McLaughlin – South elevation, it's not in the old historic district (OHD) so has no concerns about the solar. Pohl – The 3 overlapping gables could be fixed by having the eave run across the top of the windows thus removing the center gable. As designed, it's aggressive looking.				
Motion	Motion to Approve through staff with the north elevation eave to run across over the windows between the gable dormers and the south elevation 2nd-floor two sets triple-ganged to have the center windows removed. (Oliver)				
Roll-call Vote	Carried 5-0//Camp, Coombs, McLaughlin, Oliver, and Pohl-aye			Certificate #	HDC2022-01-5526

Alternates	Welch, Thornewill				
Recused	None				
Documentation	Architectural elevation plans, site plan, photos, and historical documents.				
Representing	Hollis Webb				
Public	None				
Concerns (6:21)	<p>Webb – Presented project. One document said 1915 but construction is circa 1930-1940s; this has lots of structural issues and he can't restore it. He will save as much old material as possible. Drafted up a similar cottage to replace this.</p> <p>Backus – She found a date 1915 per National Historic Landmarks (NHL). It's sad to see it go. Documentation should be submitted for a permanent record.</p> <p>McLaughlin – This has gone beyond saving.</p> <p>Coombs – Asked if some of the old interior wood could be salvaged, especially the wide floorboards, for reuse.</p> <p>Pohl – There's a mix of old stuff with post 1930s.</p>				
Motion	Motion to Approve the demolition. (McLaughlin)				
Roll-call Vote	Carried 5-0//Oliver, Camp, Coombs, McLaughlin, and Pohl-aye			Certificate #	HDC2022-01-5586

6. The Sandbar	01-5527	4 Bathing Beach Road	Roof Overhang	29/1	Val Oliver

Recused	Oliver				
Documentation	Architectural elevation plans, site plan, photos, historical documents, and advisory comments.				
Representing	Val Oliver, Val Oliver Design				
Public	George Kelly, operator				
Public	None				
Concerns (6:31)	<p>Oliver – Presented project; this is the Jetties Pavilion. Nantucket Preservation Institute did a study, which she sent to Ms. Backus. Circa 1900s with many incarnations, reviewed historic photos. We are leaning toward Option 2, which has a roof over the middle section only. We are not touching the building itself, just the porch.</p> <p>Kelly – We want to get rid of the awning; it doesn't look very nice; a roof would become part of the building.</p> <p>Backus – This is actually circa 1890 the Brant Point Bathhouse; commissioned by Clifford Folger of Peabody & Stearns. In 1912, Mr. Folger asked for Peabody & Stearns to design additions. Option 2 would be the better proposal with keeping the pitch to as close to existing as possible. Overhangs are characteristic on these types of structures. This is a Town-owned historic resource; the Town would have to apply for the historic tax credits, and that has been brought to the attention of Town Administration.</p> <p>Read HSAB comments 1/31: This is an iconic historic structure designed by Peabody and Stearns in 1904 and is still in its original unmodified form. Adding this enormous porch completely changes the scale and appearance of the structure and is entirely inappropriate. Other temporary adaptations need to be considered rather than permanently destroying this piece of Nantucket's history. A detached, sympathetic pavilion might be an option. HSAB would like to review further revisions.</p> <p>Camp – She likes Option 1 with the two hipped roofs; it complements the existing hipped roof.</p> <p>Thornewill – She likes Option 2; with some rafter-tail details, it would be more reminiscent of what was there originally. The old photos are fascinating.</p> <p>Coombs – She also likes Option 2; it leaves the historic building simple.</p> <p>McLaughlin – East elevation, asked if the posts are shingled (yes). North elevation, asked if the dormers are being touched (no).</p> <p>Pohl – He too likes Option 1 but Option 2 is safer and more in keeping with the current configuration. Likes Ms. Thornewill's suggestion of rafter tails.</p>				
Motion	Motion to Approve Option 2 through staff with rafter tails appropriately added. (Coombs)

Documentation	Architectural elevation plans, site plan, photos, historical documents, and advisory comments.				
Representing	Ethan McMorrow, Ethan McMorrow Design Associates John Megrue, owner				
Public	None				
Concerns (6:53)	<p>McMorrow – Presented project. He had drawn up the deck pulled back leaving some hipped roof.</p> <p>Backus – Circa 1869 shingle style. Agrees other options for the railings should be considered. Appreciates the old photos. Read HSAB comments 2/7: The proposed second-floor deck and railing overwhelm the roof below; the new deck should not wrap around the corner but be broken into 2 decks and pulled a further back from the roof edge. The original railing in the old photos is so low that it reads as a balustrade; the half-shingled rail is taller and conceals and complicates the simple massing of the main house. Other options for the railing should be considered. HSAB would like to see revisions.</p> <p>McLaughlin – South elevation, this is appropriate.</p> <p>Oliver – Thinks the railing at half and half would be better.</p> <p>Coombs – Agrees with Ms. Oliver. Doesn't think the railing should wrap on the right side.</p> <p>Camp – She misses the hipped roofs; agrees with HSAB that the deck should be pulled back a bit.</p> <p>Pohl – The parapet wall part makes it feel top heavy; the issue is the weight of a parapet that tall.</p>				
Motion	Motion to Hold for revisions and to go back to HSAB. (Coombs)				
Roll-call Vote	Carried 5-0//Camp, Oliver, McLaughlin, Coombs, and Pohl-aye			Certificate #

Concerns (7:20)	<p>Dimov – Presented project; to be white.</p> <p>Backus – Contemporary circa 1994 infill in the 'Sconset OHD. Page 84 of BWNIM indicates access should be via a scuttle from the interior.</p> <p>Read SAB comments 1/31: roof walk is unprecedented and inappropriate; exterior access inappropriate and ungangly.</p> <p>McLaughlin – There are exterior stairs on Walsh Street and they look horrible; roof walk access through the scuttle.</p> <p>Welch – Disagrees about the exterior access; it should take more of a ladder form with the lower portion against the house, not projecting out. The skirt should be natural to weather.</p> <p>Coombs – Location of the roof walk is inappropriate; it's top heavy; the exterior access should not be allowed. The roof walk should be in the center, not on a side wing. This structure is visible from all sides.</p> <p>Oliver – It is very visible even with the hedges. She's okay with the roof walk; her concern is the ladder in a very visible location. There is no skirt proposed.</p> <p>Pohl – He's okay with a natural to weather roof walk. The exterior access should be as discrete as possible; the bent stairs is awkward.</p>				
Motion	Motion to Hold for revisions. (McLaughlin)

Public	Vlatko Pesnacki, owner			
Concerns (7:45)	<p>Brook Meerbergen, abutter</p> <p>Oliver – Presented project; modular construction: trim natural to weather, black windows and doors and roof.</p> <p>Meerbergen – There are no 2-story buildings on this court; it will stand out. 29'6" is overwhelming and they could go lower with a shed dormer while keeping the interior program.</p> <p>Camp – She agrees with Mr. Meerbergen; the houses in this neighborhood are predominantly 1 story; it's out of scale.</p> <p>Coombs – Agrees; this would set a precedent and end the originality of Lewis Court.</p> <p>McLaughlin – He finds this compatible to the neighborhood; it's surrounded by 2-story houses.</p> <p>Welch – It's not compatible with this neighborhood. It would be more successful as a 1¼ with dormers; but he's okay with it being 2 stories. Given the distance from the street, a 7'6" 2nd-floor ceiling would knock out some height; a farmer's porch would give it more of a rural feeling.</p> <p>Pesnacki – We can drop the 1st floor to an 8' ceiling height and lower the 2nd-floor to 7'6". On the Fairgrounds side, all the houses are 2 stories.</p> <p>Pohl – He would like to see a reduction of more than 6" in height.</p>			
Motion	Motion to Hold for height revisions. (Welch)			
Roll-call Vote	Carried 5-0//Camp, Coombs, McLaughlin, Welch, and Pohl-aye		Certificate #	
15. Deirdre Hamling Tr 01-5559	6 Lowell Place	Rev. 02-2951: addition	41/167	Joseph Topham
Voting	Pohl, Camp, McLaughlin, Coombs, Oliver			
Alternates	Welch, Thornewill			
Recused	None			
Documentation	Architectural elevation plans, site plan, photos, historical documents, and advisory comments.			
Representing	Joe Topham, Topham Design			
Public	None			
Concerns (7:55)	<p>Topham – Presented project; windows going to Andersen; white sashes; there are structures with Andersens.</p> <p>Backus – Circa 1933 cape. The window should remain true-divided lights (TDL); it's confusing about the openings. Appreciates reduction in the scale of work.</p> <p>Read HSAB comments 1/31: Upper-left window on the north side should match others and align with the one below. South mullion window should have divided lights; windows should be TDL.</p> <p>McLaughlin – Changes are appropriate to the neighborhood. The front door is inappropriate (existing).</p> <p>Camp – Okay with elimination of the wings. She's not sure about Andersen windows.</p> <p>Coombs – The windows, especially on the front, should remain TDL; this is right on the road. Delighted with going back to its original size.</p> <p>Oliver – The 1st-floor windows on the front should be TDL; doesn't think the 2nd floor will be noticeable; and no concerns about the rest of the windows.</p>			
Motion	Motion to Approve through staff with all but the sunroom windows to be Marvins and the rest to be Andersen. (Oliver)			
Roll-call Vote	Carried 5-0//Camp, Coombs, McLaughlin, Oliver, and Poh-aye		Certificate #	HDC2022-01-5559
16. King Fisher Realty Tr 01-5596	278 Polpis Road	Rev.: roof walk & Fenest.	25/2	Gryphon Architect
Voting	Pohl, Camp, McLaughlin, Coombs, Thornewill			
Alternates	Welch			
Recused	Oliver			
Documentation	Architectural elevation plans, site plan, and photos.			
Representing	Ethan Griffin, Gryphon Architects			
Public	None			
Concerns (8:05)	<p>Griffin – Presented project; thinks visibility is very low. All glazing has been approved.</p> <p>McLaughlin – Looking at the photos, there's a lot of idiosyncrasies in the architecture which would be inappropriate. The skylight should be in the upper 2/3 of the roof. The roof walk is inappropriate with the 3-rail top. The window in the roof walk tower is inappropriate.</p> <p>Coombs – She can't approve the roof walk as proposed; it might be visible from the harbor and it is inappropriate.</p> <p>Thornewill – This takes away from the cuteness of the building; it's not typical at all. Something else could be done.</p> <p>Camp – She can see some type of roof walk but not with the windows incorporated into the skirt.</p> <p>Pohl – This reminds him of the building he reluctantly approved to be demolished at 2 Highland; it had a big boxy roof walk. He thinks this has been well done and he has no concerns. Feels visibility will be very limited.</p>

Recused	None			
Documentation	Architectural elevation plans, site plan, photos, historical documents, and advisory comments.			
Representing	Steven Stockigt			
Public	None			
Concerns (8:16)	<p>Stockigt – Presented project.</p> <p>Backus – This is located within the OHD; tax assessor says 1920 while NHL says 1970s, which would still meet the timeframe for contributing. The age of the structure should come into play. Architectural Moray black are approvable in the OHD.</p> <p>Read HSAB comments 1/31: 3-tab shingles are preferred in the OHD.</p> <p>Camp – She has no concerns.</p> <p>Oliver – No concerns.</p> <p>Coombs – She would prefer 3-tab.</p> <p>McLaughlin – no concerns.</p>

Recused	Oliver			
Documentation	Architectural elevation plans, site plan, and photos.			
Representing	Joseph Deimler, Smith & Hutton			
Public	None			
Concerns (8:20)	<p>Deimler – Presented project; Gwynn Thorsen design; sashes to go to Country blue. South elevation, proposing to raise grade 2'4". Andersen E windows are aluminum clad; the new doors would be aluminum clad as well. Removing the south elevation chimney, not the one punctuating the roof walk.</p> <p>Camp – Wishes the pergola didn't slant down. Likes what he's doing. The blue will be fine.</p> <p>Coombs – The chimney gives it some depth and relates to the huge roof walk. The front door should be wood; we should stay away from aluminum.</p> <p>McLaughlin – Medouie Creek is a private road; the only place you can see this from is Polpis Harbor.</p> <p>Welch – No concerns.</p> <p>Pohl – This is not on the harbor so isn't visible from Polpis Harbor. The 3D renderings are very helpful.</p>

Concerns (8:36)	<p>Metz – Presented project; height is 26'11"; white trim and shutters; the house will sit at the same elevation as the other houses around it.</p> <p>McLaughlin – South elevation, the front door should have more wood; the crossbucks on the roof walk and porch are atypical. North elevation, this is over fenestrated; the crossbucks need to be changed</p> <p>Oliver – The crossbuck details are overwhelming and should be simplified. The house is beautiful.</p> <p>Coombs – This goes from side line to side line; should telescope back more. South elevation, the front 2nd-floor shutters won't close over the mulled windows; the front door glass panels are too large related to the windows; the roof walk is inappropriate with the crossbuck railing. The other houses have more 1-story additions and don't go from side line to side line. It has too many mulled windows.</p> <p>Camp – Agrees about the width. South elevation, the 2nd-floor windows should be picture windows on each side without shutters. The crossbucks in the roof walk should be changed to simple balustrades; okay with them on the porch.</p> <p>Pohl – It's an attractive house but has too much going on; agrees about simplifying the details. He'd like to see cross sections showing how the grading will be dealt with, particularly on the east and west.</p>
