Representing	Elisabeth O'Rourke, Jardins International				
Public	None				
Concerns (4:46)	O'Rourke – Presented project; a white gate will stand out and black is used on the studio; feels dark will make them disappear. Backus – Read HSAB comments: house is a simple, Quaker design; gate should be simple with flat top and should be painted white, not black. Oliver – The window and black panels in the studio were not approved and received a violation citation. She'd prefer a color other than white, suggested natural to weather. Camp – White gates and white picket fences are the norm; we have no dark gates. She's okay with the proposed if the gates are white. Thornewill – Agrees natural to weather would be good. McLaughlin – Muted; no comments or vote.				
Motion	Motion to Approve through staff with the gates to be natural to weather. (Camp)

Concerns (5:02)	Petrella – Presented project. Camp – No concerns as long as we have the visibility caveat for the pool. Thornewill – Concerned that the vegetation will not be thick enough. Welch – Looking at the aerial, the brush is a little thinner; okay with the concept but should hold for a final review of the landscape plan showing where plants will be supplemented.

Concerns (5:10)	King – Presented project; sits 10 feet off the property line at the closest point; could add a vegetative buffer; 15X30. Camp – She wants to view because of what's happened on Dukes Road in the past. Wants to see a site plan with a planting plan and pool dimensions. Pool looks very large as depicted in the aerial photo. Thornewill – It sits really close to the property line and boxes the neighbor between two pools and retaining walls; there's room to relocate the pool. Welch – He'd like to see a landscaped plan and a scaled drawing and a site plan with the pool located on it. Two other pools in the area are 15 feet off the property line.

Concerns (5:24)	<p>Thornewill – Presented project; we can move the vent up as much as possible. Backus – Read HSAB comments: circa 1840, okay with choice of material; prefer vent in less visible location. Oliver – She’s okay; once the copper has a patina, it won’t be noticeable. Welch – It’s right at the height of the window; suggested raising above the line of window headers. McLaughlin – No concerns. Camp – Likes Mr. Welch’s idea of moving it up out of the line of vision.</p>

Concerns (5:43)	<p>MacEachern – Presented project; circa 1910; owner prefers air conditioners (A/C) on the east elevation, windows are mixed simulated divided light (SDL) and TDL; want all SDLs.</p> <p>Backus – Property is known as Whales Back. Read SAB comments: closed railing odd; SDLs not appropriate; A/C Option 2 more appropriate; south balcony door better as 12-light; shame to lose any existing TDLS and want to know which those are.</p> <p>Camp – Okay with shingling the balcony. Okay with proposed in general.</p> <p>Oliver – Appreciates moving the A/C to the east; it doesn't appear any TDLS are left.</p> <p>Thornewill – SDLs are not appropriate in the old historic district (OHD).</p> <p>McLaughlin – Claims this isn't in the OHD (it is).</p> <p>Coombs – Would prefer it remain as close to original as possible: TDLS and baluster rails.</p>

Concerns (6:01)	<p>Botticelli – Presented project; according to Sanborne Maps, it was built post 1949.</p> <p>Backus – Read HSAB comments: Main house is circa 1915; no date indicated on this; don't support demo would prefer it be kept and repurposed. Appreciates the framing photos.</p> <p>Camp – She's fond of these hipped garages and they are throwbacks to maybe the 1940s; they are part of our history as early examples of garages. Would prefer it be repurposed on site.</p> <p>Oliver – Appreciates the scale but doesn't think it needs to be kept. However, would be nice if it were reflected in what's proposed.</p> <p>Welch – This could be moved off or demolished and has limited re-use potential. Agrees about echoing the scale and silhouette in its replacement.</p> <p>McLaughlin – Hates to see garages turning into cottages; wants it to remain as is.</p>

Concerns (6:17)	Botticelli – Presented project. Backus – Read HSAB comments: Circa 1915; existing shutters are important; west wing too long; south elevation 2 nd -set of French doors should be moved back; general massing acceptable but addition could be reduced to be more compact. Oliver – Agrees with HSAB about making the addition more additive. Agrees front, triple-ganged windows are overwhelming and loses rhythm of shutters. It should be simpler. Camp – This is getting blown up and losing its original profile; front should not be changed. South elevation, the gable dormer should be a smaller shed sitting lower on the roof. East elevation looks good. Agrees about calming the massing and keeping the historical front. McLaughlin – The proposed fenestration is over 50%. Thornewill – Agrees with what's been said. North elevation is most visible and iconic. Agrees with Ms. Camp about the rear and south elevations. Coombs – North elevation, 2 nd -floor, triple windows should go back to the simple, classic façade. South elevation gable dormer should be a shed dormer or eliminated. The addition height should be lowered and extended out more to be more additive.

Concerns (6:31)	Churchill – Presented project. Backus – Read SAB comments: photos would be beneficial; not necessarily a 'Sconset house but in keeping with immediate neighborhood; north elevation eye-brow arch atypical. Camp – This does have a lot of 'Sconset in it. No concerns. Welch – Suggested trying to work in green shutters or change trim to green; green trim would be beneficial and more appropriate. Oliver – She agrees with Mr. Welch about the trim color. McLaughlin – North elevation, the door has too much glass; should be a more typical door style. Coombs – She'd like the number of ganged windows reduced, especially on the front and west.

Concerns (6:47)	Cutone – Presented project; circa 1909; 1 st -floor sits above flood plain and will be back for historic determination to save original foundation; cobblestone grey trim, dark grey sash and doors, and wood roof. Backus – Read HSAB comments: French doors should be 10- or 15-light; northeast elevation dormer out of balance; appreciate reusing existing front door; question new dormer on the front; existing chimney should remain; existing color more in keeping; are working on retaining foundation and relocating electricals above the flood plain. This is in keeping with the resiliency guidelines being proposed as an addendum for <i>Building with Nantucket in Mind</i> . Coombs – Extending the roof at the same height as main mass makes this a box. Built by Ricky Lewis' grandfather. The different roof levels blend in with what's existing. Front door should face Union Street. Oliver – Agree about the long, main ridge; addition roof should be stepped down to be more additive. Southwest elevation, the dormer should be smaller; dormer window is larger than any of the existing windows. Likes the existing blue trim. Thornewill – Agrees with Ms. Oliver; the chimney should remain. Southwest dormer shouldn't be detailed like the large gable forward. Welch – Agrees with comments made; the chimney would break up the perception of the ridge and massing. He'd like to see a mock-up of the trim and doors in Cobblestone and dark grey or color chips. Camp – Agrees with what's been said. The addition should be subordinate to the historic massing. Likes the blue. McLaughlin – No comment.

Concerns (7:21)	Williams – Presented project; they have two driveways; this is the one on the left. Backus – Read HSAB comments: no comments. Camp – It’s excessive for one building on York Street to have two driveways. Thornewill – Doesn’t understand why the left one wasn’t abandoned when they applied for the new driveway. If they are allowed to have it, the two driveways should be the same material rather than this going to brick. Oliver – Agrees. Brick is a disconnect; it should match the right drive. McLaughlin – Agrees. Coombs – Suggested brick with a cobble center strip. This section of York is casual; shouldn’t have formal brick.

Concerns (8:08)	<p>Williams – Presented project, GIS says 1926; it shows on the 1923 Sanborne map; can't be moved.</p> <p>Backus – Read HSAB comments: a thorough historical report should be helpful and should be required for any demolition; asked for more historical information. It was pointed out to her that there have been structures in deplorable condition, such as 6 Gull Island around the corner; this doesn't have to be a demolition with some part saved; the HDC approved the oldest portion with the front door to be saved and moved.</p> <p>Oliver – She has no concerns; there isn't any historic merit left.</p> <p>Thornewill – She agrees; it's a shame it wasn't fixed and maintained when the residential section was removed.</p> <p>McLaughlin – Anything is an improvement.</p> <p>Coombs – Okay with the demolitions.</p>			
Motion	Motion to Approve the demolition. (McLaughlin)

Concerns (8:24)	<p>Kotchen – Presented project; double-story windows, vegetation will screen visibility of the 1st-floor sections and will be supplemented; natural trim with black sash.</p> <p>Backus – Read SAB comments: the front door is very atypical; northwest and southwest sides not appropriate; this is not a cottage design; Nr. 3 window is too tall and not appropriate; stacked windows not appropriate. Recommend additional photos for visibility.</p> <p>Thornewill – There will be a lot of houses in here; massing is simple, but the windows are too much in an area with more traditional houses.</p> <p>Oliver – Appreciates the massing; it's okay except for the 2-story windows and the chimney is overly large. South elevation will probably be the most open.</p> <p>McLaughlin – The stacked, 4-over-4 windows are inappropriate and should be removed; the guidelines instruct putting larger windows on the 1st floor and smaller on the 2nd.</p>

Concerns (8:34)	<p>Kotchen – Asked the Board to review the garage rather than holding to track. Presented project.</p> <p>Backus – Read SAB comments: not typical design; balcony unusual for ‘Sconset; too tall for a garage; east elevation barn door faces the street, want to know what’s behind it (opens into structure).</p> <p>Camp – Natural to weather trim and black sash are harsh for the area; okay with the design.</p> <p>Thornewill – It is simple but seems tall. Driving under a deck to enter the garage seems odd.</p> <p>Oliver – Proportion of width and height is odd; the balcony would be better integrated into a porch roof, which would mitigate the height.</p> <p>McLaughlin – No comments.</p> <p>Coombs – 22’7” meets our height guidelines.</p>
