

# HISTORIC DISTRICT COMMISSION REGULAR MEETING

2 Fairgrounds Road  
Nantucket, Massachusetts 02554  
[www.nantucket-ma.gov](http://www.nantucket-ma.gov)

**Commissioners:** Raymond Pohl (Chair), Diane Coombs (Vice-chair), John McLaughlin, Abigail Camp, Vallorie Oliver,  
**Associate Commissioners:** Stephen Welch, Jessie Dutra, Carrie Thornewill

~~ MINUTES ~~

**Tuesday, March 30, 2021**

*This meeting was held via remote participation using ZOOM and YouTube,  
Pursuant to Governor Baker's March 12, 2020 Order Regarding Open Meeting Law*

Called to order at 4:30 p.m. and announcements by Mr. Pohl

Staff in attendance: Cathy Flynn, HDC Compliance Coordinator; Holly Backus, Preservation Planner; Terry Norton, Town Minutes Taker  
 Attending Members: Pohl, Coombs, McLaughlin, Camp, Oliver, Welch, Thornewill  
 Absent Members: Dutra  
 Late Arrivals: Oliver, 4:34; Thornewill, 4:36 p.m.; McLaughlin, 4:42 p.m.; Camp, 6:04 p.m.  
 Early Departures: None

Adoption of Agenda.

Motion **Motion to Approve as drafted. (Welch)**

Roll-call Vote Carried 4-0//Coombs, Oliver, Welch, and Pohl-aye

**V. OLD BUSINESS 03/16/2021**

<u>Property owner name</u>	<u>Street Address</u>	<u>Scope of work</u>	<u>Map/Parcel</u>	<u>Agent</u>
1. 61 Fairgrounds, LLC <b>02-2980</b>	61 Fairgrounds Road – Lot A	Main house	67/176	Linda Williams
Voting	Pohl, Coombs, Welch, Thornewill			
Alternates	None			
Recused	None			
Documentation	Architectural elevation plans, site plan, and photos.			
Representing	Linda Williams			
Public	None			
Concerns (4:38)	<b>Williams</b> – Reviewed context photos; reviewed changes made per previous concerns; ridge height from grade is 28’7”; trim is natural to weather with cobblestone grey doors and sash. <b>Welch</b> – Appreciates the changes. Asked them to consider adding a tree placed every 30 feet along Parker and Fairgrounds; that would go a long way to soften this up; the impact of the design is strong enough that we should ask for the trees. The streetscape front of the structure shows a length of 38.5’; the elevation shows the unchanged length of the front. He’s okay with 38’6”. Also, the streetscape shows the width compressed so the proportions are all off. <b>Thornewill</b> – This is a typical looking house; it’s still a little long and tall for Parker Lane. The size is still a concern considering what else is being proposed. <b>Coombs</b> – Agrees the height should come down and get narrower. Agrees landscaping will help it fit in. Design isn’t bad. <b>Pohl</b> – Agrees with what’s been said about landscaping, height, and length. The porch needs two more columns between the door and adjacent windows. The elevation we’re looking at is not the revised version; that’s really frustrating; he’d like to see the revised elevation with four columns on the porch.			
Motion	<b>Motion to Approve through staff with the width reduced to 38’6”, the height at 28’7”, and four columns on the porch. (Coombs)</b>			
Roll-call Vote	Carried 4-0//Welch, Thornewill, Coombs, and Pohl-aye			Certificate # <b>HDC2021-02-2980</b>

 Alternates None  
 Recused None  
 Documentation Architectural elevation plans, site plan, and photos.  
 Representing Linda Williams  
 Public None  
 Concerns (5:32) **Williams** – This is the most visible lot; width 27’5”, height from grade 28’5”; reviewed changes made per previous concerns; grey trim and terratone sashes.  
**Coombs** – The dormers are oversized for the size of the house. South elevation dormer should have 3 windows in a reduced dormer and centered over the 1<sup>st</sup>-floor door.  
**Thornewill** – This is on a well-travelled road and a corner. The second-floor dormer should have a consistent fascia. The rear mass should drop to have a foot of difference in the eave heights. Agrees about the south elevation dormer. That ridge and eave should come down on the secondary mass.  
**Welch** – Agrees with Ms. Thornewill about the eave height. Street trees are going to be very important.  
**Pohl** – The north elevation runs along Parker Lane; really likes Mr. Welch’s tree idea for this house. Rear addition eave should be dropped 1 foot.
- Motion **Motion to Hold for revisions. (Coombs)**  
 Roll-call Vote Carried 4-0//Welch, Thornewill, Coombs, and Pohl-aye Certificate # 67/176 Linda Williams

 Documentation Architectural elevation plans, site plan, and photos.  
 Representing Linda Williams  
 Public None  
 Concerns (5:41) **Williams** – Reviewed changes made per previous concerns; cobblestone grey trim; dormers won’t be visible.  
**Thornewill** – No concerns.  
**Coombs** – The 2<sup>nd</sup>-floor dormers are huge for the size of the house with excessive wall space. East elevation dormer cheek walls should come in.  
**Welch** – It’s a typical Nantucket cape. Would prefer the dormer eaves to come down but won’t be very visible. The walkdown should be shown on the elevation. Asked for the dormer eave to be dropped a single shingle course.  
**Pohl** – This is a pretty benign building. He agrees with Mr. Welch about dropping the dormer eave.
- Motion **Motion to Approve through staff with the dormer roofs dropped 6” in height to align with window headcasings, showing the walkdown, and with cobblestone trim. (Welch)**  
 Roll-call Vote Carried 4-0//Thornewill, Coombs, Welch, and Pohl-aye Certificate # **HDC2021-02-2983**

 Representing Linda Williams  
 Public None  
 Concerns (5:02) **Williams** – Rear is not visible; 36’ wide and height 27’9” to grade; trim, sash, and door are white.  
**Thornewill** – The drawings need to reflect the reality; the notes are helpful and official, but on the rear the dormer plates for the dormers look very high. Going forward, the drawings need to be correct, not just have hand-written notes. Approving incorrect plans with notes is not fair for those who wait for revised drawings.  
**Coombs** – North elevation has a lot of wall with small windows; there is space for more 1<sup>st</sup>-floor windows; wants to see where the 2<sup>nd</sup> dormer window will go.  
**Welch** – Wants to see street trees on the proposed landscape plan. Agrees with comments about correct drawings. He’s okay with the spacing of the windows; referenced the Jethro Coffin House as an example of atypical window spacing.  
**Pohl** – Thinks these pre-fab companies are not incentivized to update their plans. We just approved a house drawn way longer than it is and now this one has notes on the pitch and adding a window that are not shown on the plan; this isn’t fair for other applicants.
- Motion **Motion to Approve through staff with the plan changes to reflect the drawings with notes and reduction in the eave height of the dormers. (Welch)**

Representing	Linda Williams			
Public	None			
Concerns (5:15)	<p><b>Williams</b> – Provided height from grade, changed the door and balanced the windows; 22’11” from grade.</p> <p><b>Thornewill</b> – East elevation, the dormers are too tall compared to the 1<sup>st</sup>-floor windows; the dormer plates look to be 8’; the whole dormer eave needs to come down relative to the window headers.</p> <p><b>Coombs</b> – Suggested another piece of trim around the front door. Agrees with Ms. Thornewill about dropping the eaves of the doghouse dormers.</p> <p><b>Welch</b> – One issue with the dormers is the box soffit detail isn’t something we’d see on a gable dormer; the cheek would be recessed and drop the bottom of rake board more in line with where the soffit meets the cornerboard. Agrees with Ms. Thornewill; a more decorative frontispiece would be appropriate.</p>			
Motion	<b>Motion to Approve through staff with a frontispiece added to the front door and drop the eaves of the two front dormers and remove the box. (Welch)</b>

Public	None			
Concerns (5:22)	<p><b>Williams</b> – Reviewed changes made per previous concerns; west elevation is not visible.</p> <p><b>Coombs</b> – It got taller. East elevation, the dormer should be shorter to reduce the amount of shingle space. It goes from setback to setback; doesn’t want this subdivision to become a little city.</p> <p><b>Thornewill</b> – Agrees about the front dormer; it’s very long and could be brought in a couple of feet. The rear elevation, a gable goes into the long dormer with no windows; that’s incongruous.</p> <p><b>Welch</b> – Agrees the dormer cheek walls could come in at least a foot. For the size of the structure, it still looks squat; but it will be viewed obliquely.</p> <p><b>Pohl</b> – Agrees with what’s been said. Bring the front dormer in 1 foot each side.</p>			
Motion	<b>Motion to Approve through staff with the front dormer reduced by 1 foot either side. (Thornewill)</b>			
Roll-call Vote	Carried 4-0//Welch, Coombs, Thornewill, and Pohl-aye		Certificate #	<b>HDC2021-02-2986</b>

Concerns (5:50)	<p><b>Webster</b> – Reviewed changes made per previous concerns.</p> <p><b>Flynn</b> – If the revised plans arrived yesterday, they did not meet the deadline for the meeting.</p> <p><b>Thornewill</b> – Appreciates the changes; the front door pediment should be shingled.</p> <p><b>Welch</b> – Agrees with Ms. Thornewill. Appreciates other changes. Right of the covered porch, asked if that is shingled or panel (shingled).</p> <p><b>Oliver</b> – The side facing the path on Lily still reads as a lot of glass; should be 2 French doors with shingles either side. Doesn’t think the 5 banked windows will be visible but we can add the caveat.</p> <p><b>McLaughlin</b> – not responding.</p>			
Motion	<b>Motion to Approve through staff with the front porch panel being shingled. (Thornewill)</b>			
Roll-call Vote	Carried 3-0//Welch, Thornewill, and Coombs-aye; Oliver-nay; McLaughlin no vote		Certificate #	<b>HDC2021-02-2977</b>

Concerns (6:03)	<p><b>Kotchen</b> – Trim natural to weather and black sashes; reviewed changes made per previous concerns.</p> <p><b>Backus</b> – Read SAB comments: reduce chimney height and glazing; north elevation, 2 small windows are shown on revision but not in original; chimney looks industrial and would stand out; chimney should be no more than 3 feet above the ridge; west elevation size and glazing didn't change. She has concerns of the visible from the rear.</p> <p><b>Camp</b> – West elevation, the 2-story window looks like four French doors on stop of each other; would prefer a picture window approach.</p> <p><b>Thornewill</b> – Appreciates most of the changes. The south and north elevations are odd; this is a traditional-style neighborhood, and the cottage corners and tall window elements are very modern and aren't appropriate for this neighbor.</p> <p><b>Oliver</b> – West elevation is her only concern with what would be visible from Pond Road.</p> <p><b>McLaughlin</b> – No comments.</p> <p><b>Coombs</b> – The chimney should be corbelled up higher, at least at the top of the windows.</p>				
Motion	<b>Motion to Approve through staff with cornerboards and exterior fireplace corbelled higher. (Thornewill)</b>

Concerns (6:16)	<p><b>Kotchen</b> – Reviewed changes made per previous concerns; trim is natural to weather; he's willing to flip the program.</p> <p><b>Backus</b> – Read SAB comments: concern with the balcony over garage doors; not welcoming and obvious; stairs and entrance over the car entrance is a concern; east elevation is unbalanced and is the most visible.</p> <p><b>Oliver</b> – Appreciates height reduction. Her biggest concern is the balcony over the garage doors should be incorporated into a roof. No concern with the stairs and she likes the barn doors.</p> <p><b>McLaughlin</b> – North elevation proportion should be 1.5:1; should be a little wider.</p> <p><b>Camp</b> – The staircase and balcony over the garage doors look odd.</p> <p><b>Thornewill</b> – Suggested moving the deck to the north side and the flipping the interior program. Should have cornerboards.</p>				
Motion	<b>Motion to Approve through staff with 2<sup>nd</sup> floor mirrored so that the deck is on the north elevation and stairs remain on the west and add cornerboards. (Thornewill)</b>

12. Charles Schwarzapfel 10-2033	9 Maine Avenue	Pool	60.3.1/425	NAG
Voting	Pohl, Coombs, McLaughlin, Camp, Oliver			
Alternates	Welch, Thornewill			
Recused	None			
Documentation	Landscape design plans, site plan, photos, correspondence, historic documentation, and advisory comments.			
Representing	Steve Theroux, Nantucket Architectural Group			
Public	Linda Williams, MAB			
Concerns (6:25)	<p><b>Theroux</b> – Reviewed changes made per previous concerns; reviewed history of Eel Skin Inn from a 1-room shack on North Cambridge Street to what is now on Maine Avenue; in 1970, this was ruled as not a historic structure; reviewed fences in the area for context regarding the screening fence; a lot of the objecting neighbors don't want a pool in their neighborhood. Asked for a resolution tonight.</p> <p><b>Williams</b> – Across Millie's Bridge, the area is very different; this doesn't fit with the character of Smith's Point; a fence will draw attention to the fact something is being hidden; this is inappropriate in this setting; no location for lighting and pool equipment.</p> <p><b>Pohl</b> – The letters were sent to commissioners earlier.</p> <p><b>Camp</b> – It's hard to talk about this site without talking about the surrounding streetscape; this area is much to rural for a pool. She wants to keep the site as is.</p> <p><b>Oliver</b> – The amount of fencing being proposed will jeopardize the visual quality and character of place. The photos show that there are no extensive, closed-in yards; fencing in the area does enclose small yards and/or equipment. This area is open beach area; the fencing is incongruent with the beach-side area. This would set a negative precedent. The fencing should be around the pool only with plantings of the area to make it inconspicuous.</p> <p><b>Coombs</b> – Her concern is the pool as part of the area landscape is inappropriate. Part of our mission is to approve something that maintains the streetscape and so is not appropriate for this area. Agrees with what's been said.</p> <p><b>McLaughlin</b> – We should have set a regulation that pool screening should be no more than 20 feet from the edge of the pool. There is a lot of low brush there but he's okay with screening the pool.</p> <p><b>Pohl</b> – The vegetation is all very low, reminiscent of the Cisco pool controversy. To add a board fence to this very flat, severe landscape would be a disservice to the area. If there is going to be a pool at all, the screening should be more natural vegetation harmonious with existing vegetation. It's unlikely that an approval through staff would go forward tonight. Confirmed Mr. Theroux is going on record requesting a resolution rather than allowing further revisions.</p> <p>Discussion about issuing a denial or holding.</p>			
Motion	<b>Motion to Hold for revisions. (Oliver)</b>			
Roll-call Vote	Carried 5-0//Camp, McLaughlin, Coombs, Oliver, and Pohl-aye		Certificate #

Representing	Doug Mills, Mark Cutone Architecture			
Public	None			
Concerns (6:50)	<p><b>Mills</b> – Reviewed changes made per previous concerns.</p> <p><b>Backus</b> – Read HSAB comments March 15: no concerns. There was discussion about color; this application will need a sister application for historic determination.</p> <p><b>Oliver</b> – Appreciates the changes; most of her concerns were addressed. Northeast elevation, the little square windows in the middle gable seem out of place; suggested moving one window to the southeast or installing a skylight on the southeast roof plane and eliminating the small windows on the northeast.</p> <p><b>Welch</b> – Appreciates the changes. Not as concerned about the small windows; it would be great if there is a more era-specific style window.</p> <p><b>Thornewill</b> – Likes the subtle change separating the masses. Agrees with Ms. Oliver about the northeast elevation little windows.</p> <p><b>Camp</b> – She had concerns with lining up the southeast windows; the triple ganged windows would look better if the left window aligned with the 2<sup>nd</sup>-floor window.</p> <p><b>McLaughlin</b> – The changes to this house as submitted fit into the area.</p>			
Motion	<b>Motion to Approve through staff with the two small 4-light windows removed from the northeast and a 2X3, wood-trim skylight added to the southeast elevation roof plane and align the southeast triple ganged window with the 2<sup>nd</sup> floor window. (Oliver)</b>

Concerns (7:08)	<p><b>Mpme</b></p> <p><b>Williams</b> – Reviewed changes made per previous concerns.</p> <p><b>Oliver</b> – As she recalls, there was a citation from the DPW; it should be included in the file.</p> <p><b>Drahzal</b> – That was a violation notice from HDC; DPW issued the curbcut permit in September with work done in October.</p> <p><b>Backus</b> – Read HSAB comments from March 15: lowering the sidewalk 10” is a concern - especially where it will slope back up south of the driveway; the current sidewalk is consistently level all the way down that side of Pleasant Street; this will create an unusual dip; recommendations: cap should be natural rough stone; more info should be provided to show the proposed new slopes on either side of the driveway to ensure the slope meets ADA guidelines. Prior to the bylaw change requiring people come before the HDC before applying for a curbcut was done because of cases like this. Zoning for Pleasant Street requires on-site turnaround.</p> <p><b>Welch</b> – Town policy is people who want to speak have to identify themselves by name; there are some people on ZOOM without identification. He’s okay with the Pennsylvania fieldstone and Town approval of the grade.</p> <p><b>Oliver</b> – No concerns; just wants all the bits and pieces we need.</p> <p><b>Camp</b> – She has some concerns: the slope and the shells. They need to be able to turnaround to get out.</p> <p><b>Pohl</b> – Doesn’t like the bluestone cap.</p>			
Motion	<b>Motion to Approve through staff with removal of the bluestone. (Welch)</b>

Concerns (7:34) **Flavin** – Reviewed changes made per previous concerns.

**Lynch** – Reviewed further changes.

**Russell** – We addressed HSAB concerns; there's been a lot of progress on this.

**Backus** – Structure is circa 1795 Asa Gardner House. Read HSAB comments from March 15: photographic evidence appears to show pre-existing clapboard; original roof walk did not have a skirt; roof walks on buildings of this period typically did not have skirts; new roof walk should reflect original design without skirt; south elevation, new 12-over-12 window is too wide creating squarish panes; north elevation, 8-over-8 windows were not traditionally used in town; west elevation, 2<sup>nd</sup> floor 12-over-12 windows are too short creating squarish panes; east elevation, the faux chimney/elevator shaft is too massive for a rear chimney (or any chimney) and is not acceptable; the desire for an elevator to the third floor should not be a reason to approve such an awkward detail; this portion of the building is clearly visible from Lucretia Mott Lane standing in front of the Ship's Inn's driveway; dormer window H is too wide creating squarish panes; outdoor showers should be at grade level – not elevated on a porch; recommendations: remove roof walk skirt; south elevation, narrower 12-over-12 windows; north elevation, change 8-over-8 windows to 12-over-12; west elevation, lengthen 12-over-12 windows; east elevation, remove faux chimney completely, make H window narrower, put shower at grade.

**Piemonte** – Agrees with HSAB. Concerned about northeast corner grade level changes and retaining wall and run off. Already changed the driveway to abut my property; that's the second driveway change. Concerned about the elevator shaft as well.

**Welch** – He'd like the existing conditions dashed into the proposed floor plan; substantial changes to a historic structure is a concern. His biggest concern is the 2<sup>nd</sup>-floor and 3<sup>rd</sup>-floor decks are inappropriate to the setting. South elevation, appreciates the change to the roof walk but it's more than 1/3<sup>rd</sup> the width of the roof. He's uncomfortable approving a structure where 1/4 of the structure foundation is obscured by a fence; wants to see what is going on there.

**Thornewill** – Agrees with much what Mr. Welch said. The elevator shaft is being called a chimney and treated with brick; it could be incorporated into the roof walk. The roofwalk should be all natural; if the elevator shaft is approved there, then the skirt makes sense. Agrees the shower should be at grade. Agrees we should see the foundation. Appreciates all the window changes; HSAB recommendations would make it even better.

**McLaughlin** – No comments at this time.

**Coombs** – The roofwalk should not have a skirt; it's not historic for this house. The elevator shaft needs to be reconsidered; it's too wide and is brick. The original building should remain prominent. Agrees with much that's been said. We need to ensure that original facades as seen from the streets remains unchanged.

**Pohl** – Nothing to add. North elevation, the landscape element shouldn't be shown on the architectural plans especially when obscuring what is behind it; we need to see what's actually happening.

Motion **Motion to Hold for revisions and removal of the fence from the north elevation plans. (Welch)**

Roll-call Vote Carried 5-0//Coombs, McLaughlin, Thornewill, Welch, and Pohl-aye

Certificate #

17. Gordon C. Russell 02-2976	3 School Street	Hardscape	42.3.2/125	Flavin Architects
Voting	Pohl, Coombs, McLaughlin, Welch Thornewill			
Alternates	None			
Recused	None			
Documentation	Landscape design plans, site plan, photos, and advisory comments.			
Representing	Colin Flavin, Flavin Architects Nathan Lynch, Flavin Architects Gordan Russel, Owner Rob Newman, Sandcastle Construction, Inc.			
Public	Tom Piemonte, 1 School Street			
Concerns (8:00)	<p><b>Lynch</b> – Reviewed changes made per previous concerns.</p> <p><b>Russell</b> – The elevator location was recommended to go to the roofwalk which sits over the historic structure; asked for direction from HDC about how to handle the elevator shaft. We could go with a brick patio. The HDC approved the driveway in its current location.</p> <p><b>Pohl</b> – HDC has a concern about the elevator shaft; it's up to the owner and designer to come up with a solution. A motion was made and voted on the house and that hearing is now closed.</p> <p><b>Piemonte</b> – Would like the Board to address the issue of the elevated grade behind the driveway so that runoff doesn't impact our property. The driveway location seems impractical; suggested the Board look at that the possibility of moving it to the other side.</p> <p><b>Backus</b> – Read HSAB comments: would like to see North elevation that shows retaining walls; bluestone was not a traditional patio material in town; recommendations: change Bluestone to brick and/or make patio smaller. I concur with HSAB recommendations.</p> <p><b>Thornewill</b> – Respects not touching the historic center of the building. The runoff is the responsibility of the homeowner. Agrees brick more is appropriate than bluestone; thinks most won't be visible. The driveway exists as approved.</p> <p><b>Welch</b> – The patio might be good with Goshen stone. His concern with the driveway is raising the grade to extend it. He'd like to see a cross section of the patio showing fill and what's being retained against the existing grade.</p> <p><b>McLaughlin</b> – This property is screened from public view. He has no comments.</p> <p><b>Coombs</b> – They can't remove trees without certifying whether or not they are Town trees. She remembers the board in the past did review where runoff would go; would like that checked.</p> <p><b>Pohl</b> – He's in favor of a brick patio. He also supports seeing the cross section of the patio.</p>			
Motion	<b>Motion to Hold for additional information. (Welch)</b>

18. Taylor Murphy 02-2961	7 Evergreen Way	Garage door change	68/722	Self
Voting	Coombs (acting chair), McLaughlin, Camp, Oliver, Thornewill			
Alternates	None			
Recused	None			
Documentation	Architectural elevation plans, site plan, and photos.			
Representing	Taylor Murphy, owner			
Public	None			
Concerns (8:21)	<p><b>Murphy</b> – The board asked for a more neutral color, so going with tan.</p> <p><b>McLaughlin</b> – The proposed garage door is appropriate outside the old historic district.</p> <p><b>Camp</b> – Concerned about the horizontal windows. The color in the photo is very different.</p> <p><b>Thornewill</b> – Suggested a cool grey to go with the black sash. Doesn't think the window panes will be evident.</p> <p><b>Oliver</b> – When this came through before, she was okay with the black door. Regarding the windows, leave the horizontal mullion out. A lot of doors outside the Town are metal or fiberglass.</p> <p><b>Coombs</b> – She would go with black or grey and removing the horizontal mullion. The steel door is a concern.</p>			
Motion	<b>Motion to Approve through staff with the door to be black or grey and no horizontal mullion. (Oliver)</b>

Motion	<b>Motion to Approve as submitted. (Coombs)</b>			
Roll-call Vote	Carried 5-0//Thornewill, Camp, McLaughlin, Coombs, and Pohl-aye	Certificate #	<b>HDC2021-02-2964</b>	
22. Stuart Hendrin <b>02-2941</b>	43 Kendrick Street	New dwelling- MH	76.4.3/31	CWA
Voting	Coombs (acting chair), McLaughlin, Camp, Oliver, Welch			
Alternates	Thornewill			
Recused	None			
Documentation	Architectural elevation plans, site plan, and photos.			
Representing	Chip Webster, Chip Webster Associates			
Public	None			
Concerns (8:44)	<p><b>Webster</b> – Reviewed changes made per previous concerns; berming and planting will be place along Kendrick to mitigate visibility; will provide perspectives from Kendrick; it's 3000sf on the 1<sup>st</sup> floor; south elevation is natural-to-weather ship-lap.</p> <p><b>McLaughlin</b> – South elevation, the 2<sup>nd</sup> and 3<sup>rd</sup> floor will be visible; the fenestration exceeds the 50% rule; replace picture windows with double-hung windows.</p> <p><b>Camp</b> – Asked for another view with the poles. She does have some concern with the 3<sup>rd</sup>-floor deck.</p> <p><b>Oliver</b> – She didn't view this. This is very large; she agrees with Mr. McLaughlin about everything above the 2<sup>nd</sup> floor being visible. South elevation, the windows are 2-over-2 then there are large picture windows with chicklet panes; that makes no sense. The 3<sup>rd</sup>-floor element with a railing and dormer attached to the roofwalk are not appropriate. This is the size of a hotel. The chimneys should have caps and one is skinny and one is fat.</p> <p><b>Welch</b> – Agrees with Mr. McLaughlin and Ms. Oliver. South elevation, the 1<sup>st</sup> and 2<sup>nd</sup> floor look like a commercial structure; visibility it a critical issue. Asked that the original application be included in the view packet; he couldn't cross reference.</p> <p><b>Coombs</b> – South elevation is very atypical; doesn't know of many houses with 3<sup>rd</sup>-floor decks. The glazing should be reduced.</p>			
Motion	<b>Motion to View and Hold for a perspective. (Camp)</b>
