Documentation	Landscape design plans, site plan, photos, historical documents, and advisory comments.			
Representing	Linda Williams

Concerns (5:08)	<p>Williams – Incorporated the spa into the deck; Belgium block will go to brick.</p> <p>Backus – Read HSAB comments 3/21: Despite the presence of other Belgium block aprons on the street, cobblestones or brick are more appropriate apron materials for a building of this age; the Belgium block paving surrounding the front stoop is too expansive and should be limited to just in front of the steps leading to the street and be made of brick. A planting bed should occupy the space between the stoop and the street, not paving. The 36” fence surrounding the AC units is probably not tall enough to completely conceal them; it may need to be about 48” high, or better yet, put the AC units in back. All of the other properties on Beaver Street have Type II picket fences; this board fence stands out as an oddity and should change to Type II. The 6’ board fence surrounding the back yard is too tall. The cobblestoned lawn in the back may be somewhat visible and is very inappropriate; this should be lawn. Hot tubs and spas are not appropriate in the old historic district (OHD). Asked for an exterior lighting plan. HSAB would like to see revisions. Circa 1765 lean to. HSAB reviewed the original submittal; not this revision. Happy to see this reduced plan. Spas aren’t appropriate in the OHD but are allowed by zoning.</p> <p>Discussion about minimizing the hardscaping around the front stoop.</p> <p>Oliver – Clarified the west elevation outdoor shower and condenser enclosures. Agrees there should be vegetation in front of the front stoop. An apron only has to be 3’ in the OHD.</p> <p>Coombs – Feels this isn’t the place for a spa; it’s one of our oldest houses in the OHD. Would like to see the front planted as suggested. The fence in front should be a Type II, capped picket to match other fences on the street.</p> <p>Camp – Thinks brick in front of the stoop will create a little space. Agrees the fence across the front should be a picket and its color should match the house trim. Okay with the deck but not the spa.</p> <p>McLaughlin – West elevation, the door light is too low.</p> <p>Pohl – He’s okay with the Type II fence. We all agree the apron should be brick. He’s okay with the brick around the front stoop.</p>			
Motion	Motion to Approve through staff with the driveway apron to be brick and the board fencing in the front to be Type II and the color to match the trim. (McLaughlin)

Concerns (5:31)	Oliver – Presented project; height 28.6'; grey trim and black sash and doors. Camp – This is fine. Okay with the roof walk having a skirt. Dutra – No concerns. Coombs – The front porch posts would look better equidistance apart. She prefers the roof walk with no skirt; that makes it lighter. McLaughlin – Asked about the air conditioners (A/C). Pohl – He's okay with a full skirt on the roof walk.

Concerns (5:39)	Backus – Circa 1775 Josiah Gardner house, pre-revolutionary. The proposed color (moray black) and architectural shingles are approvable in the OHD, but she prefers 3-tab. Read HSAB comments 3/28: HSAB prefers 3-tab shingles on old Quaker style buildings in the OHD due to a less busy appearance. Oliver – This already has architectural. No concerns. Coombs – She'd prefer 3-tab. Camp – She's okay with it; it's not a Federal-style. McLaughlin – No concerns.

Concerns (5:44)	<p>Newman – Presented project; 29’ tall. Dan Malloy has control over the grading, which has been reviewed and approved by other boards. He believes the fill was put on this lot temporarily.</p> <p>Martinez – Read into the record a letter of concerns from abutter Chris Bevis, 47 West Chester Street.</p> <p>Coombs – Front, the shed dormer cheek walls should come in or separate the windows to fill them; would like the left main-mass dormer aligned over the front door if possible. The south elevation solar panels won’t be visible. She wants to see the topographical information.</p> <p>Oliver – Agrees the dormers should be a little smaller; they are overwhelming the front. There does seem to be a significant drop off in grade; asked where that falls on the lot and how it will be reflected in the structure. Solar panels will not be approved with this application. She’d like to see a streetscape.</p> <p>Camp – Agrees. She’s concerned about the build-out of this lot. She wants to see a cross section of the existing versus proposed grading plan.</p> <p>McLaughlin – South elevation, the meeting rails don’t align with the fascia.</p> <p>Pohl – Fill has been put on the lot and it looks like it raises the grade an additional 2’; this board won’t approve that. The main architectural issue is the width of the front double dormers; we could require as part of our motion that the existing grade remain.</p>

Brick more in keeping with age of house. Circa 1916 within ‘Sconset OHD; it could be visible from King Street.</p> <p>Camp – She has no concerns because of the hedge and gate.</p> <p>Coombs – Use an existing type of stone with a little bit of planting around it.</p> <p>Oliver – No concerns.</p> <p>McLaughlin – No concerns.</p>

Concerns (6:18)	<p>Olbres – Presented project; the conduits were in place when he took this project on.</p> <p>Backus – Read SAB comments 4/4: West facing windows no concerns; sash to match existing need clarification. East elevation French doors facing street not appropriate; should remain single with windows; porch posts should remain. Exterior box conduits on north and south should be eliminated and are not appropriate.</p> <p>There is some confusion on the date; existing HDC survey indicates 1906 but tax assessor indicates 2002.</p> <p>Dutra – Asked if the conduits were approved. Prefers the existing porch posts. Okay with the French door change.</p> <p>Coombs – Agrees with SAB; the mini-splits on the south and north are not appropriate. There should be no 2nd-floor balcony on the east elevation (existing). East elevation, the porch posts should remain as existing. The mini-split ducts should be redirected since they are working on this house.</p> <p>Camp – She prefers the existing conditions; it has a more cottage-Codfish Park feel.</p> <p>McLaughlin – No comments.</p> <p>Pohl – Agrees with what’s been said.</p>

If this is recommended for demolition or moving; it should be documented interior and exterior with photos and drawings.</p> <p>Dutra – It’s worth having more documentation on this; would like some kind of throw-back to Mr. Peterson such as in the name of the park or a plaque.</p> <p>Coombs – Agrees with Mr. Dutra.</p> <p>McLaughlin – No concerns.</p> <p>Oliver – She has no concerns.</p> <p>Peterson – Her mother lived here until last year; her parents bought the land in 1967. She does hope some of the trees they planted are kept.</p>

	<p>Ewing – Reviewed the topography and changes made per previous comments; only the Holly tree is on this lot. No demolition of any existing is proposed. She feels the engineer’s dimensions regarding grade and fill is accurate.</p> <p>McLaughlin – He has no concerns and would motion to approve.</p> <p>Backus – HSAB didn’t get to review the revisions. We do not have the topographical plan in our packet. Post 1923 pre-1949, individually significant. The approved driveway location should be included on the topographical map. Recommend this go back to HSAB. Plans should be clearer regarding material and proposed demolition. Need a window survey. The submitted cross section is not clear. Read the minutes from the prior hearing; those are still pertinent.</p> <p>Coombs – Doesn’t feel the topographical information as submitted is adequate; wants to see how much fill is being asked for, which requires the topography of existing and proposed. South elevation has 21 windows and east elevation windows are all mulled. The proposed fenestration is overwhelming.</p> <p>Welch – North elevation, the existing the grade isn’t accurately depicted; the proposal shows a dramatic change for which we need more accurate information. West elevation will need retainage. South elevation, the grade is again not accurate. The foundation of the house is concrete blocks 8” tall; the north elevation exposes 4’ of foundation; the topography is reflecting some of the fill. The proposed grade changes are extreme and inappropriate; they change the character and setting of this home and the home to the right. Pointed out that if the proposed grade change is approved, it will cause drainage issues, similar to what happened at the Mill Hill subdivision.</p> <p>He’s okay with the mulled units; it looks like the same frames with different sashes; if they are proposed to be new, the existing unit for a home of this era are mulled with a wider fascia than the side casing; that detail should be maintained and is historically correct and important to this structure. The 6-over-1 windows are too intense; perhaps 2-over-1 would be better. The grade is of critical importance, and we should have a retaining plan.</p> <p>Oliver – Agrees with Mr. Welch about the grade and retaining. She likes adding grills to the windows. South and north back wing needs to drop below the eave line of the main house to be more additive. Agrees the south is over fenestrated; the number of basement windows exacerbates the fenestration issue. The rear elevation is almost 34’.</p> <p>Camp – We need an east-west cross section showing existing versus proposed grade. We need information about retainage.</p>

Concerns (7:05)	<p>Williams – Presented project; her photos support lack of visibility; feels another window won't work.</p> <p>Backus – Read HSAB comments 4/11: The skylight is visible from Hussey Street and not in a typical location; an additional window would add as much light to the room. Would prefer a smaller wood skylight (not a wood-boxed Velux). HSAB would like to see revisions.</p> <p>Circa 1794 built by John Jenkins. Recommend a view to ascertain visibility.</p> <p>Oliver – Asked if another window. She wants to view this.</p> <p>Coombs – She'd like to view as well. If we approve this, it should be wood, not clad Velux.)</p>

Concerns (7:11)	<p>Williams – Presented project.</p> <p>Backus – Read HSAB comments 4/11: Drawings of existing conditions would be very helpful. South windows should be separated more. Proposed north window in the main mass creates an unbalanced appearance and should be eliminated. The 2 west-facing windows in the main mass do not need to shift to the left; that removes more original fabric and should remain as is. The chimney is not shown on the drawings; this should be corrected and approved with corrected drawings. HSAB would like to see revisions.</p> <p>Circa 1750 typical Nantucket 5 bay. Agrees with HSAB on the north and south elevations of the addition have a lot of glass and will be visible. Agrees with HSAB about the center-ridge chimney remaining.</p> <p>Camp – The most important changes for her are on the back. North elevation, remove the 6-light window.</p> <p>Oliver – No concerns.</p> <p>Coombs – She's good with the proposed changes. Put the chimney back.</p> <p>McLaughlin – No comments regarding the proposal.</p>			
Motion	Motion to Approve through staff with the window put back in and remove the north elevation 6-light and move the south elevation window 8". (Camp)

Concerns (8:43)	Perkins – Presented project. Backus – Circa 1780s built by Silas Gardener. For the record, this is an as-built. Camp – She’s disappointed that this happened, and we now have a vent on the front of a historic house; they should be fined. Pohl – Suggested lattice to help hide the range hood. Concerns (8:49)	Coffin – Presented project; the other driveway is no longer there. Backus – HSAB didn’t get to review this. The house was moved from across the street. The configuration is a double driveway. HSAB has been consistent about no granite curbing on this part of Hulbert. Need a better site plan. Coombs – HSAB doesn’t approve a granite going up Hulbert Avenue; agrees with that. She doesn’t approve of mixed material and mixed-sized stones. Camp – She prefers Belgium block and with white shell; no granite. The scale throws her off and Belgium block is rougher and more rural. Dutra – The photo of 1 Baxter Road granite is more historic looking and would be more appropriate and antique than Belgium block. Pointed out that Belgium block is granite. McLaughlin – It seems like a lot of paving Pohl – He likes the size of granite pavers shown at 1 Baxter Road; it also has a nice patina.			
Motion	Motion to Approve through staff with granite stone dimensions no larger than 12X18”. (Dutra)
