Applicant DIANE CATINO ET AL Address 11 "D" STREET

Historic information/known history

- () Non-Contributing () Contributing () Individually significant

Comments

- () Incomplete application () Historical information needed () No Concerns () Recommend View
- () Does not meet guidelines () Not appropriate (As noted below)

North Elevation

Unbalanced fenestration, Second floor sliders out of scale for elevation, deck enclosure height not shown and scuppers not shown

East Elevation

Ungang second floor dormer windows, scuppers not shown, deck too deep and long, no basement plan

West Elevation

No access is shown into HVAC area, vertical cladding is not consistent with neighborhood context

South Elevation Five casement windows out of scale/context with Old Madaket area, deck exceeds 8 feet deep

Other

Plans do not show dimensions, Old Madaket should maintain low, simpler cottage style dwellings, out of scale with the neighborhood, height, massing, width, height is not clearly noted, photographs are not descriptive of view from the abutting streets, suggest a view, application says "main house" what else is being proposed? Structure appears to fill the lot with the width, no real additive massing, first floor deck appears to be too massive, symmetry of the wings is atypical of structures in the neighborhood, the length across the street frontage is atypical,
