VI. OLD BUSINESS (06/29/2021)

	Property owner name	Street Address	Scope of work	Map/Parcel	Agent
1.	22 Easton Street, LLC 05-3643	22/24 Easton Street	Main house	42.1.4/12.1	Workshop APD

Voting Pohl, Coombs, McLaughlin, Camp, Thornewill
 Alternates None
 Recused None
 Documentation Architectural elevation plans, site plan, photos, and advisory comments.
 Representing Andrew Kotchen, Workshop APD
 Public None
 Concerns (1:07) **Kotchen** – Reviewed changes made per previous concerns; white trim, grey sash, and natural to weather clapboard.
Backus – Reminded the commission the existing 1950s historic structure is approved for demolition with conditions; listed the conditions. Read HSAB comments 7/19: design approach is disappointing for such an important and prominent location; it is a complicated collection of disorganized and competing boxes and doesn't identify with the Brant Point neighborhood; the hierarchy is confusing with no clear main mass and subordinate additions; the doors are oversized and detract from the building; the 4-lite design is confusing next to the 2-over-2 windows; doors should look like doors and be of a more traditional size and pane proportions; the very visible chimney mass is awkwardly located; the east elevation reads as a monotonous 2-story wall with little character; the independent ridge of the stepped portion is too disconnected to count as additive massing and feels like its own building; the horizontal boards on the outdoor shower and porch skirt should be vertical or paneled lattice; the second-floor deck railing should be more traditional; the south facing screened porch panels should sit on a traditional porch railing; suggested looking at historic cottages on Brant Point such as "Sandanwede" and the former "Driftwood".
Thornewill – It's a good-looking house; though detailing isn't as traditional and so much glass and detailing feel very modern for Brant Point. Appreciates opening up the site more. Should have more traditional Nantucket elements due to its location: doors, trim, porch, deck railings. Go with the rakes. She doesn't think this has to be grand and symmetrical.
Camp – Likes the modern details harkening back to the existing house. The far-left chimney seems plopped on. Okay with horizontal railings. Steps going up either side look very hard here. The four buildings in front make the site busy; it needs a more organic design in placement.
Coombs – South elevation, the left 2nd-floor deck horizontal railings are a concern; the 2nd-floor deck should be unobtrusive, and the railing plus 2-over-2 windows create too many horizontal lines and draw attention. The central part should be a little simpler; the two garages fit in well.
McLaughlin – Overall design is architecturally inappropriate for the old historic district (OHD).
Pohl – Easton Street is the most eclectic street in terms of architectural styles and people are used to that. He's generally okay with this hybrid. His concern is the massing and organization of structures seems chaotic.
 Motion **Motion to Hold for revisions. (Coombs)**

2.	22 Easton Street, LLC 06-4026	22/24 Easton Street	Pool, Apron, & Fence	42.1.4/12.1	Ahern

Voting Pohl, Coombs, McLaughlin, Camp, Thornewill
 Alternates None
 Recused None
 Documentation Landscape design plans, site plan, photos, and advisory comments.
 Representing Andrew Kotchen, Workshop APD
 Public None
 Concerns (1:37) **Kotchen** – The pool will be totally planted to conceal from public view; the site plan is an older version.
Backus – This zoning district is R1. Read HSAB comments 7/19: this plan doesn't agree with the site plan for the main dwelling and should track with that; the proposed granite stones at the driveway entrance are too large and should be brick or Belgian block to fit into the neighborhood; recommend outdoor lighting plan; should track with other buildings.
Coombs – She'd prefer the pool be turned and brought in closer to the house.
Thornewill – There is 1 private pool on this harbor at the very end of Easton; there shouldn't be a pool here due to the density of this important, historic neighborhood.
Camp – In this neighborhood, a pool, which is 15" above grade and running front to back, could be an issue; but with some modifications, this could work.
McLaughlin – Asked about the fence and grade. There shouldn't be so much glass in the OHD.
Pohl – As long as there are mechanisms in place to screen it from any public way, he sees no way to object.
 Motion **Motion to Hold for a more comprehensive site plan and revisions. (Camp)**

Documentation	Architectural elevation plans, site plan, photos, advisory comments, <i>Building with Nantucket in Mind</i> (BWNIM), and <i>Resilient Nantucket Design Guidelines</i> (RNDG).				
Representing Public	Matt MacEachern, Emeritus Development				
Concerns (1:52)	<p>MacEachern – Review changes made per previous concerns.</p> <p>Backus – Front balcony inappropriate and too tall; historically the buildings were utilitarian and simple; Still too tall at 34’6”; inappropriate finishing of brick; look at Chapter 11 RNDG; balconies still inappropriate within the OHD; referred to BWNIM Page 151; proposal doesn’t provide traditional proportions. Read HSAB comments 7/19: this design is still too large, tall, and complex for this location and very similar to the one next door; the historical waterfront typically had simpler utilitarian buildings; this building should show that norm on this street; there should be a change in the height of the massing to show a dominant main mass and a lower additive mass; second floor balconies overlooking the street are inappropriate downtown with no historical precedent; the 3rd floor should be eliminated; this is a corner lot and the height is very visible from the new park and the wide sidewalk across from the Dreamland; this is yet another in a series of proposed projects that are attempting to super-size downtown Nantucket; we need to keep the existing scale of these buildings in order to retain the character of Town and keep it from changing forever.</p> <p>Coombs – This is much too tall at 35’+ and complicated for Easy Street; it should not compete with the Dreamland, Whaling Museum, and Athenaeum. It should be one of the lowest building; old Nantucket photos show the buildings getting lower as they approach the harbor. It is over fenestrated; north elevation, almost all the windows are mullied. The roof walk on a 3-story building is unacceptable. It should be simpler, brought down to no more than 30 feet, and fenestration reduced.</p> <p>Thornewill – Agrees with HSAB about the 3rd floor and the height. The flared ends of the roof draw the eye up. The roof walk doesn’t work on this style.</p> <p>Oliver – Agrees with HSAB. Appreciates the change in the roof style. Reads as too modern; bring down the height and add traditional details. Structures along Main Street have a lot of glass on the first floor, but fenestration reduces as you go up; the 3rd-floor dormers are too modern.</p> <p>McLaughlin – South elevation, the left brackets should not be arched. It should be shingled from the 2nd floor up. East elevation, the two 1st-floor doors should be changed to have less glass; the deck should be all shingled.</p> <p>Pohl – Concerns include: roof walk, brick siding, over dormerization of the 3rd-floor, simplify the roof plane, east elevation 2nd-floor deck could be eliminated or reduced to a Juliet balcony, and simplify the detailing.</p>

Concerns (2:30)	<p>Thornewill – Presented project.</p> <p>Coombs – There are too many mulled windows; they should be reduced. North elevation, should have a single window in the gable.</p> <p>Camp – She’s okay with the mulled windows.</p> <p>Oliver – Appreciates the stature and the colors. Okay with the front door as proposed.</p> <p>McLaughlin – The front door should have more wood less glass; It needs to stand out as a front door.</p> <p>Pohl – Thinks a cottage-style front door would work. Appreciates the natural trim. Most of the mulled windows are not visible from Pochick.</p>
