

HISTORIC DISTRICT COMMISSION REGULAR MEETING

2 Fairgrounds Road
Nantucket, Massachusetts 02554
www.nantucket-ma.gov

Commissioners: Raymond Pohl (Chair), Diane Coombs (Vice-chair), John McLaughlin, Abigail Camp, Vallorie Oliver,
Associate Commissioners: Stephen Welch, Jessie Dutra, Carrie Thornewill

~~ MINUTES ~~

Tuesday, March 16, 2021

*This meeting was held via remote participation using ZOOM and YouTube,
Pursuant to Governor Baker's March 12, 2020 Order Regarding Open Meeting Law*

Called to order at 4:30 p.m. and announcements by Mr. Pohl

Staff in attendance: Cathy Flynn, HDC Compliance Coordinator; Holly Backus, Preservation Planner; Terry Norton, Town Minutes Taker

Attending Members: Pohl, Coombs, McLaughlin, Camp, Oliver, Welch, Thornewill

Absent Members: Dutra

Late Arrivals: McLaughlin, 4:34 p.m.; Coombs, 4:56 p.m.

Early Departures: McLaughlin, 8:37 p.m.

Agenda adopted by unanimous consent.

Motion **Motion to Approve as amended. (Welch)**

Roll-call Vote Carried 5-0//Oliver, Camp, Thornewill, Welch, and Pohl-aye

I. PUBLIC COMMENT

1. **Phil Thomason**, Thomason & Associates, consultants – Thanked for comments on first draft; working through that. Asked commissioner to look through the draft and get any comments to Ms. Backus next Monday, March 22; that will give him time to put them into another iteration of the draft.

II. CONSENT

IV. OLD BUSINESS CARRIED OVER

	<u>Property owner name</u>	<u>Street Address</u>	<u>Scope of work</u>	<u>Map/Parcel</u>	<u>Agent</u>
1.	Derek Till 02-2944	86 Quidnet Road	Reno and addition	21/102	L. Williams/NAG
Voting	Coombs (acting Chair), McLaughlin, Camp, Welch, Thornewill				
Alternates	None				
Recused	Oliver				
Documentation	Architectural elevation plans, site plan, photos, and historic documentation.				
Representing	Linda Williams Steve Theroux, Nantucket Architectural Group				
Public	Lisa Botticelli, abutter				
Concerns (5:14)	<p>Williams – This was held for a view. It’s hard work to keep some of the original quirkiness.</p> <p>Theroux – Reviewed changes made per previous concerns.</p> <p>Camp – North elevation, the 1st-floor hipped roof with deck could come around to the rear and cross to the door. West elevation, preferred 2 windows on the 2nd-floor far left; front door need some character; would prefer 2 windows on the far right 1st floor; if the far-left gable were a shed roof, it would make that elevation quieter and mimic the other side.</p> <p>Thornewill – The main mass is the whole history and sets up the character; it should remain as is. This is moving towards the street and heard it would be lifted with grading. The triple gable is too much and detracts from the original mass. North elevation, could have a gable on the end and eliminate one on the front. Simplify some of the addition and leave the existing chaos of the original mass. East elevation 2nd floor left gable, the porch roof doesn’t work; triple gables are too much.</p> <p>McLaughlin – West elevation faces Quidnet Road; as proposed it isn’t against the guidelines; the 4-light front door should be changed to a typical 6-panel front door. Height conforms with others in the area. Asked the designer to make the changes as noted in the minutes and come back with those changes; that would make it approvable.</p> <p>Welch – West elevation, the left gable was moved back 15 feet but doesn’t present well in 2D; if it were a shed, that would remove any ambiguity; appreciates the roof lines of the original structure are being retained or reflected; agrees there is more latitude in the new additions with respect to contemporary fenestration and keeping the original fenestration in the original main mass would be good. South elevation, the gable adjoining the covered porch serves no purpose other than to give the porch roof something to die into; if the porch roof comes off, the gable facing east could be eliminated leaving the salt box. In the future you could come in for the porch roof to mimic the shallow roof on the front. Acknowledges if you change the other gable to address the concern about the west elevation gable, the east elevation right gable goes away too.</p> <p>Coombs – West elevation, if the dormer became a shed, asked if that would change the north elevation. Front door, she would like it to have more trim around it.</p> <p>Botticelli – Asked the 1st-floor finished-floor elevation be memorialized on the plans</p>				
Motion	Motion to Hold for revisions. (Welch)				
Roll-call Vote	Carried 5-0//Camp, Welch, McLaughlin, Thornewill, and Coombs-aye			Certificate #

Concerns (4:39)	Botticelli – Asked this be held for the beginning of the March 12 meeting; also, the main house was left off the agenda. Not opened at this time.			
Motion	Motion to Hold for the beginning of March 23rd along with accompanying main house at applicant’s request. (Oliver)			
Roll-call Vote	Carried 5-0//Welch, McLaughlin, Oliver, Thornewill, and Camp-aye		Certificate #	
3. 14 Lowell Place, LLC 10-2188	14 Lowell Place	New dwelling	41/164	Emeritus
Voting	Pohl, Oliver, Welch			
Alternates	None			
Recused	None			
Documentation	Architectural elevation plans, site plan, photos, correspondence, and advisory comments.			
Representing	Matt MacEachern, Emeritus Development Rebecca McWilliams, attorney for owners Mark Norris, owner			
Public	Jeff Marsh 10 Lowell Place Victoria Rakov, 12 Lowell Place Zander Farkas, 9 Barnabas Lane and 20 Woodbury Lane			
Concerns (4:44)	<p>MacEachern – Reviewed changes made per previous concerns. Height now 26’. He can change the dormer roof pitches. Asked for specific direction to get this approved.</p> <p>McWilliams – Compared the dimensions to neighborhood structures and lot coverage. Privet hedge will screen from the rear. Neighbors cannot legally prevent development of this lot. Asked for an approval.</p> <p>Norris – Many points in his letter were stated by Ms. McWilliams.</p> <p>Backus – Read HSAB comments from March 8: east elevation height still taller than needed; lower plate height of main mass to reduce height and align meeting rails of the flush dormers with the eaves; north elevation drop middle section significantly to be more subordinate to the main mass; shed dormer pitch too steep at 7/12 and overwhelm east elevation. We did receive comments from neighbors, which were included into the packet.</p> <p>Marsh – He’d like to get this resolved. This doesn’t seem to be consistent with HDC guidelines regarding height and shape and goals and compatibility. This is not consistent with HDC’s denial of our application in 1992.</p> <p>Rakov – Referenced letter she sent. The footprint increased and is still a significantly larger in mass than homes directly in view of this house. It is hard to accept the contention it is not on Lowell Place; it will be visible from Lowell Place. 6 Lowell Place was asked to reduce height less than the 20 feet as proposed here.</p> <p>Farkas – Concurs with comments about the size and scale. There was a suggestion to turn the main ridge perpendicular to the road to reduce the perception of height.</p> <p>Norris – HSAB comments said this is behind 14 Lowell Place. We’ve made significant changes; we’ve respected the process. It’s necessary to point out that the abutters have their opinions but it’s the Board’s opinion that counts.</p> <p>Oliver – Appreciates the significant modification, but her opinion is still that this needs to be further downsized; the new iteration is 250sf (square feet) larger than the previous submission. It is still larger in massing than many houses in the neighborhood. The rear transom dormers are atypical. The scale is more in keeping with Main Street but moving in the right direction. The doors are very large. Remove the very contemporary transom dormers over the end piece. Her main concern is the overall volume; it’s about 400sf to 500sf larger than other houses in the area.</p> <p>Welch – The length of the time in front of the HDC has nothing to do with the building; that isn’t peculiar to this application. If this house were on the front lot directly abutting Lowell Place, it would not be approvable. This is on the rear lot and moved back some 15 feet more than originally proposed. Also, the height has been substantially reduced and the trim package is more conventional. Covered porch helps create a sense of additive massing. It doesn’t help adding the garage into the house; the integrated garage is substantially smaller in massing while it makes the overall footprint larger; its massing is more traditional. Would prefer overall massing come down in size and the setbacks be observed. This is appropriate. Asked it be shifted off the north setback. Looking at the cover page, the originally proposed, the east elevation has dramatically changed. Agreed with Ms. Oliver about the door height and making the dormers more traditional. From Lowell place, the roof pitch of the connector between the garage and main house could be dropped to 7/12 and decrease the sense of mass. If it can be pulled a foot south, that would get the air conditioning (A/C) away from the north neighbor.</p> <p>Pohl – This has come a long way. Agrees with HSAB about the steep dormers. The 41-81L controversy is not part of HDC purview. Given what you have and it’s on the back lot, there is little to find fault with. Mr. MacEachern’s goal should be to accommodate Mr. Welch and Ms. Oliver.</p>

Recused	Pohl					
Documentation	Architectural elevation plans, site plan, and photos.					
Representing	Chip Webster, Chip Webster Associates					
Public	None					
Concerns (5:45)	Webster – Reviewed changes made per previous concerns. South elevation faces the rear; the only visibility would be the east side and a corner of the north up the driveway past the main house. This sits lower than the main house as the lot slopes. McLaughlin – The main house screens this and it's fine. Asked about the cantilevered deck (attaches to main house). Camp – The fenestration is chaotic, especially on the south elevation. The single-pane windows look better. Oliver – Appreciates the changes. The doors are too big at 8'feet tall on a secondary structure. South elevation, agrees with Ms. Camp. The large 4-light "C" window over the sliders doesn't correlate with anything. Asked if the sills were meant not to run through but be couched against the trim boards (sills will be standard). Welch – South elevation, the "C" window should be smaller or changed. Coombs – South elevation, the lower left windows don't look like the "C"; asked the visibility of the south.					
Motion	Motion to Approve through staff with doors to be 7'6"; "C" window approved because it's not visible; and sills adjusted to typical detail. (Welch)

Documentation	Architectural elevation plans, site plan, and photos.					
Representing	Andrew Kotchen, Workshop APD					
Public	None					
Concerns (5:59)	Kotchen – Reviewed changes made per previous concerns. South and east elevations not visible. Coombs – No particular problems with any of this. Mr. Kotchen addressed my concerns. McLaughlin – East elevation, the 2-story window is inappropriate if it is visible. North elevation, the fenestration exceeds the 50% guidelines; reduce fenestration, especially on the left section. Camp – As a whole, she's worried about this complex looking like a small development. The "F" dormer windows on the front and the west look very small; asked if the dormers and windows could be a little larger; likes the rhythm of the dormers. Oliver – The massing is fine; she has concern with the chaotic fenestration, but if it can't be seen, she has no concerns. Pohl – He's okay with this.					
Motion	Motion to Approve as submitted. (Oliver)

12. Alex Karis **02-2862** 11 Mill Hill Lane New 2nd dwelling 55/924 Brook Meerbergen

Voting Pohl, Coombs, Camp, Oliver, Thornewill
 Alternates None
 Recused Welch – stepped out
 Documentation Architectural elevation plans, site plan, photos, and correspondence.
 Representing Brook Meerbergen
 Public Gerri Ferguson, 2 Old Mill Court
 Concerns (6:24) **Meerbergen** – Reviewed project and photos and information requested per previous concerns.
Ferguson – Has the same concerns as the last hearing; lot is over developed and going to 2-stories is unnecessary.
Oliver – It could come down in height with more dormers; her main concerns are the south and north elevations; dormers are so wide; the porch/deck needs to be better integrated.
Coombs – South elevation, the dormer meeting rails don’t align, same on the north elevation; 1st floor could use another window; the shed roof looks overly small. Needs additive massing and for the height to come down.
Thornewill – This whole neighborhood is packed in, and you can’t distinguish buildings. Believes it won’t be visible. Agrees with the lowering the eave heights to align with the dormer meeting rails; suggested a 4-foot plate height.
Camp – Agrees with Ms. Ferguson, the lot is over developed and overly hardscaped. This appears too tall. Agrees the dormer meeting rails should align.
Pohl – The gratuitous dormer needs more differential between eave of the dormer and eave of the gable; that will make it feel less tall.

Motion **Motion to Hold for revisions. (Coombs)**

Roll-call Vote Carried 5-0//Camp, Oliver, Thornewill, Coombs, and Pohl-aye Certificate #
 13. Alex Karis **02-2962** 11 Mill Hill Lane Pool and hardscape 55/924 Brook Meerbergen

Voting Pohl, Coombs, Camp, Oliver, Thornewill
 Alternates None
 Recused Welch – stepped out
 Documentation Landscape design plans, site plan, photos, and correspondence.
 Representing Brook Meerbergen
 Public Gerry Ferguson, 2 Old Mill Court
 Concerns (6:44) **Meerbergen** – Presented project; allowable ground cover is 30%, 2419sf.
Camp – The pool is too large; should be reduced and vegetation used to secure the soil; eliminate some of the hardscaping.
Oliver – Agrees with Ms. Camp. This whole development is over built; would appreciate any reduction in impervious surfaces.
Coombs – There is very little green space. The privet hedges should extend farther in both directions. The pool is too large. Landscaping should be more considerate.
Thornewill – The size seems disproportionate but not much else to add.
Pohl – Agrees with what’s been said.

Motion **Motion to Hold for revisions. (Coombs)**
 Roll-call Vote Carried 5-0//Camp, Oliver, Thornewill, Coombs and Pohl-aye Certificate #

V. NEW BUSINESS CARRIED OVER

<u>Property owner name</u>	<u>Street Address</u>	<u>Scope of work</u>	<u>Map/Parcel</u>	<u>Agent</u>

Alternates	None				
Recused	McLaughlin// Oliver – Stepped away.				
Documentation	Architectural elevation plans, site plan, photos, historic documentation, advisory comments, and manufacturer spec sheet.				
Representing	Tim Carruthers, ACK Smart				
Public	Charles Sawyer, owner				
Public	None				
Concerns (7:02)	<p>Sawyer – He thinks his house is well suited for this – simple gable facing south with almost no public exposure.</p> <p>Carruthers – Presented project.</p> <p>Backus – This is an infill, circa 1992; it’s on the rear main mass; it should be on a black roof. Read HSAB comments: some visibility from Williams Street; recommend visible portion be on a subordinate roof with possible mitigating vegetation.</p> <p>Welch – Vegetation is a mitigating factor; our guidelines request a matching dark roof but given the distance and panels go to the edge, the black roof matter is addressed by those two factors. In combination with existing vegetation, visibility from Williams Street is minimal. Asked the approval include that should the rear neighbor’s tree be lost, it would be replaced.</p> <p>Thornewill – The roof below is light, so there would be a contrast. Asked that in the future it be reroofed black.</p> <p>Coombs – Agrees with Ms. Thornewill.</p> <p>Camp – It covers the roof entirely; agrees with the screening caveat and reroofing in black.</p>				
Motion	Motion to Approve due mitigating vegetation through staff with the roof to be redone in black and if neighboring tree is removed, owner will install la new tree. (Welch)

Concerns (7:16)	<p>Meerbergen – Presented project; 57DX52W; second to last developable lot.</p> <p>Coombs – She has no idea where all these buildings are going. She'd like to have a streetscape of approved and proposed structures. This is fitting for the area; it's calm and quiet.</p> <p>Thornewill – This is one of the nicer looking buildings; the low ridge is appreciated.</p> <p>McLaughlin – No comments.</p> <p>Oliver – It's appropriate.</p>				
Motion	Motion to Approve as submitted. (Coombs)				
Roll-call Vote	Carried 5-0//Thornewill, McLaughlin, Oliver, Coombs, and Pohl-aye			Certificate #	HDC2021-02-3036

Public	None				
Concerns (7:29)	<p>Meerbergen – Presented project.</p> <p>Oliver – This is better proportioned than the one on Mill Hill Lane.</p> <p>Coombs – It's good; if the height could be dropped 2 feet, that would be better.</p> <p>McLaughlin – It's appropriate.</p> <p>Thornewill – North elevation, the left gable feels heavy from the north.</p> <p>Pohl – That's one of those things that will read more strongly in elevation than in reality.</p>				
Motion	Motion to Approve as submitted. (McLaughlin)				
Roll-call Vote	Carried 5-0//Coombs, Oliver, Thornewill, McLaughlin, and Pohl-aye			Certificate #	HDC2021-02-3035

Concerns (7:33)	<p>Meerbergen – Presented project; pool is 16X20 and screened with a fence and the house at 4 Old Mill Court; wall is 3-feet tall facing Town-owned property with a fence screening the concrete.</p> <p>Pohl – Wants to know how tall the retaining wall is and how much will be visible. It would be great if the wall could be pulled back so there was room for plants in front of it on the property.</p> <p>Discussion about ways to mitigate the view and height of the wall.</p> <p>McLaughlin – No concerns.</p>				
Motion	Motion to Approve through staff with the out-most wall to be no more than 2 feet high and inner most wall screened with board fence and plantings. (McLaughlin)

Representing	Carrie Thornewill, Thornewill Design				
Public	None				
Concerns (7:42)	<p>Thornewill – Presented project; her clients have not decided if they want a mud sill; main ridge is 29'4".</p> <p>McLaughlin – East elevation, the front door should be a 6-panel door; the deck on the left should be no more than 8 feet deep if it is visible. Much of this is not visible. It is appropriate to the area.</p> <p>Camp – East elevation, the 2nd-floor windows over the front door aren't evenly spaced from the outer wall.</p> <p>Oliver – The chimney is very high; asked if it will have a cricket (probably).</p> <p>Welch – Dropping to a mud sill would help address overall massing issues and it's being on a plateau.</p> <p>Coombs – This should have more additive massing; there is plenty of room for it. Eave heights are all 2 stories. This will be visible from Quidnet Milk Route.</p>				
Motion	Motion to Hold for revisions. (Oliver)

Public	None			
Concerns (8:29)	Cutone – Presented project; dormer faces interior to the lot; structure is circa 2007/2008. Backus – Couldn't find an age for the garage; the main house is historic. Read HSAB comments: many of the windows have panes that are too wide or wrongly proportioned; garage lites need adjusting; south elevation windows are mixed up; Recommendations: adjust window sizes for more vertical pane size; south elevation, lower windows should be taller than or similar size of upper window - many of the windows have panes are too wide or wrongly proportioned and adjust window sizes for more vertical pane size. McLaughlin – The arched brackets are not appropriate (existing). No concerns.			
Motion	Motion to Approve as submitted. (Oliver)

Public	<p>Ethan Griffin, for 69 Cliff Road</p> <p>Meryl Bralower, 1 Hamblin Road</p> <p>Karen Padir, 69½ Cliff Road</p> <p>Arthur Reade, Reade, Gullicksen, Hanley, & Gifford LLP for the Bralowers</p>				
Concerns (8:46)	<p>Meerbergen – Presented project; reviewed Conservation Commission approved grading plan with topo.</p> <p>Flynn – Read letter of concerns from Griffin, 69 Cliff Road.</p> <p>Griffin – Appreciates inclusion of the topo plan; feels almost 2 feet of fill is a significant amount.</p> <p>Bralower – Very concerned about the density of the project on a small lot. The whole lot is visible from Hamblin down our driveway. All structures sit very close to the lot lines; the size of the pool and proximity to the rear lot line is a concern.</p> <p>Padir – Our greatest concern is the slope of the property toward our property and share concerns about the fill and runoff onto our property.</p> <p>Reade – The large amount of program on a very small lot will be visible from several locations, including a straight-shot view of the pool up Hamblin. The road is a way owned by Mr. Griffin; the act indicates a way shown on the Registry of Deeds is within HDC jurisdiction.</p> <p>Camp – This lot shouldn’t have been subdivided; it’s way over sized for the lot and at this size, there shouldn’t be a pool and cabana. Doesn’t see the design appropriate for the neighborhood.</p> <p>Coombs – Agrees with Ms. Coombs. She’s concerned about the ground cover proportions of the house to the land. Architecture is bland.</p> <p>Oliver – It would be helpful to have a site plan with more information and a cross section of the property showing the house, the grading, and how the fill will work. The house itself is simple.</p> <p>Welch – Agrees about the need for cross sections; they should include points of highest and lowest along both axis. Would also like a copy of the survey drawing entered into the packet for our review and a locus map and a quick over lay of the proposed within the locus map. He wants clarification on the road between Hamblin and North Star and who has ownership. He’d also like this added back to the view list.</p> <p>Pohl – Suggested cross sections north-south and east-west showing proposed and existing grade. If the Griffins own that little way, it isn’t a public way.</p>				
Motion	Motion to View and hold for more information to include surveyed south plan, cross section at the deepest and shallowest point of the lots and a locus with an overlay of proposal. (Welch)
