Concerns (1:21)	Olbres – Presented project; removing the gate facing Hedgeberry Lane; will need one wall and could grade the other side. Oliver – This is all inside the existing hedge so won’t be visible. Coombs – Asked how much is being retained (3.5’). Questions the need for the retaining walls. Pohl – One wall will be right on the property line; doesn’t see how it can be built without disrupting the roots of the neighbor’s hedge. Suggested moving the wall away from the property line where it would retain less and be less visible.				
Motion	Motion to Approve through staff with the lower wall moved at least 2 feet away from the neighbor’s existing hedge. (Coombs)

Concerns (1:31)	<p>Ewing – Presented project; would paint the garage doors any color the HDC requests.</p> <p>Pohl – This is completely in violation of the zoning height bylaw; ordinarily a secondary structure should not exceed 24’.</p> <p>Oliver – This is a mixed-use neighborhood; while it is large, it’s congruent with the area and way in the back; it shouldn’t be 32’ tall. Asked that the east elevation exterior stairs be pushed against the wall, so it doesn’t hang out.</p> <p>Camp – The height should be brought down to 27’ at least. The east elevation deck shouldn’t exceed 8’ deep and agrees about the stairs. The fenestration needs more regularity. Would like to know more about the garage doors. Not in favor of the garage doors being tan.</p> <p>Thornewill – Agrees the height needs to come down; the 3rd-floor dormer and windows are setting up for a massive building.</p> <p>Coombs – South elevation, the 2nd-floor ganged windows; the center of the triple ganged should be eliminated and the left reduced to a single. North elevation, the garage doors shouldn’t be tan; reduce the 3rd-floor dormer to a single window. The height should be between 24 and 25 feet tall; this is a second dwelling over a garage and guidelines allow it to be 24-foot tall. Houses in this area are smaller.</p>

Concerns (1:47)	<p>Ewing – Presented project; reviewed context of the neighborhood.</p> <p>Coombs – South elevation, concerned about having all sliders on the 1st floor; that makes it too heavy. A roof walk at the Airport is odd but it breaks up the roof line.</p> <p>Camp – She doesn’t have any strong feelings about this.</p> <p>Oliver – Thinks this won’t be very visible and is appropriate to the area; a house sits between this and the road.</p> <p>Thornewill – No concerns; the fenestration changes won’t be seen. The roof walk breaks up the blockiness of the house.</p> <p>Pohl – The trim was approved Quaker grey; the roof walk is natural to weather.</p>

Concerns (1:58)	<p>Williams – Presented project; need to move it before June 15th; asked it be held for the beginning of the April 27th meeting. Groundcover is 40% and it meets that. We checked top of foundation and it is at the lowest required height.</p> <p>Meerbergen – Reviewed the architectural changes to fit the house to the new site. Will have more defined plans for the next presentation.</p> <p>Backus – Read HSAB comments: didn’t have the scaled drawings. Our Coastal Resiliency design guidelines annotate 57 Washington Street as a good example of raising a house.</p> <p>Coombs – We need to know the minimum height it will be raised in the flood zone. Turning the house changes the entry. This will fill the lot sideline to sideline; wants to know the allowable groundcover.</p> <p>Oliver – Appreciates the efforts to keep it. The façade facing Washington Street will need to be finessed to look like the front. The stairs could be cut into the porch to mitigate some of their impact.</p> <p>Camp – She agrees with what’s been said. Suggested the parking area be smaller to allow more green space.</p> <p>Thornewill – If it can’t be turned, the French doors need to be changed to look like standard front doors.</p> <p>Pohl – We need real plans showing what is really happening. The house to the right is an example of a building raised to the minimum required height. He’s aware of the time constraints related to moving this house.</p>

Concerns (2;19)	<p>Congleton – Presented project.</p> <p>Backus – Read HSAB comments: curbing has urban feel; very little curbing in Brant Point area; recommend no new curbing. The owner would have to put in a request to Department of Public Works for the curbing to be installed</p> <p>Pohl – 97% of the proposed curbing is on Town property; their property begins 5 feet from the road; people are probably parking on Town property.</p> <p>Coombs – She wouldn't put in the curbing; because of the soft soil in that area, it would be run into the ground. Suggested putting in a small hedge on their own property.</p> <p>Oliver – If it's not their property, the curb shouldn't go there. More and more, landscaping is accreting into the Town roads.</p> <p>Camp – Agrees; property owners are putting items on Town property to keep people from parking in front of their homes.</p> <p>Thornewill – Agrees with Ms. Oliver; people shouldn't build on Town property.</p> <p>Pohl – Approving this would be setting a dangerous precedent. That plus it's on Town property and being a level of formality that currently doesn't exist, he can't support this.</p>				
Motion	Withdrawn.
