Representing	Joe Paul, BPC

Concerns (1:06)	<p>Paul – This is not within the jurisdiction of the Madaket Area Plan; highest ridge is 28’.</p> <p>Camp – The old cottage was more in keeping with old Madaket. This has a long ridge and heavy mass in a delicate area; would like it scaled down. The cupola windows are too horizontal.</p> <p>Thornewill – Agrees that the middle roof is very long as seen from the southwest, which will be visible from Warren’s Landing Road. The style is in keeping with the area. Southwest elevation should be simpler; the windows and doors with transoms and sidelights is too much.</p> <p>Oliver – Agrees with what’s been said. The pane configuration on the southwest is chaotic; eliminate the transoms. Southeast is most successful because it’s simple. The cupola doesn’t work and makes it lopsided and the panes are too horizontal. The short sides are simple.</p> <p>McLaughlin – Cupola is out of character and should be remove. Northeast, change the 4-light to a regular front door.</p> <p>Coombs – Too many mulled windows. Agrees about the southwest elevation. Warren’s Landing is a simple place. There’s enough land to bring this down with more 1-story elements; it is currently very long and straight. The cupola is too large, and the panes are wrong.</p>

Concerns (1:20)	<p>Paul – Presented the project; would be best if this and the pool track the main house; height is 18’9”; natural to weather trim with black windows and doors; north elevation faces the neighbor to the north.</p> <p>McLaughlin – No comments.</p> <p>Oliver – This is simple and low. Likes the west and east a lot; not so sure about the north and south with the wings.</p> <p>Thornewill – The proportions of gable to the shed wings is off but makes it quirky. North elevation, the lack of windows makes it look like a beach hat (not visible).</p>

Concerns (1:31)	<p>MacLeod – Presented project; skylight is on the rear and not visible.</p> <p>Backus – Circa 1865. Read HSAB comments: A/C screening fence should be higher.</p> <p>Camp – Agrees with HSAB about the fence.</p> <p>Thornewill – Agrees; skylight is visible only from the rear yard.</p> <p>Oliver – Also agrees.</p> <p>McLaughlin – He’s concerned about the skylight in the old historic area (OHD).</p> <p>Coombs – The skylight is on the rear and not visible so is allowable.</p>

Concerns (1:45)	<p>Botticelli – Presented project; the elevation is correct regarding the porch; height is 28’2”, and it’s 126’ long; color of shutters isn’t noted but Essex green is good; this is a big lot that can hold a big house.</p> <p>Oliver – The site plan and floor plan show a smaller 1st-floor porch than indicated on the elevation. This is handsome. It’s 607 feet off the road.</p> <p>Thornewill – On the side facing the water, the 2nd-floor doors don’t align with the 1st floor.</p> <p>Camp – This looks super large to her; wishes it had more additive massing because it looks bulky.</p> <p>McLaughlin – The front door should be a typical style. It’s compatible to the neighborhood.</p> <p>Coombs – Essex green shutters would be good. Asked that the mulled windows be broken up; there are 5 sets on the west elevation and 6 sets on the east. Agrees with Ms. Camp about more additive massing to bring it down.</p>

Concerns (2:17)	<p>Krapp – Presented project; there is a distinct drop in grade between this and the house, so it won't look so tall; it is not visible.</p> <p>Camp – This is very vertical looking. If there isn't enough land for appropriate architecture, something has to give because this site is maxed out; the lot behind is a similarly maxed out. Would like to see the topography and elevations of the main house.</p> <p>Thornewill – Agrees; a 2-story building on this footprint makes no sense; it doesn't read right.</p> <p>Oliver – This is a 2-story pool house. It would be better to emulate the main mass wings. Suggested viewing the height poles.</p> <p>Coombs – This could be a 1-story structure.</p>
